State May Assume All Junior College Construction Costs

The Illinois Junior College Board staff has in effect, agreed to Governor Richard B. Ogilvie's proposal that the state assume 100% of building costs at state junior colleges in return for complete state control of the projects.

Four main alternate proposals for implementing the plan have been outlined for investigation by the Illinois Junior College Board, as well as a fifth which would include combinations of policies from the other four.

Meanwhile, plans are proceeding for a meeting at 7:30 p.m. Thursday, Sept. 16, in the Granite City High School cafeteria building at which the guest speaker will be Dr. Fred L. Wellman, executive secretary of the Illinois Junior College Board.

The meeting has been arranged by the Tri-Cities Chamber of Commerce Education Committee to consider forming a new junior college district in this area or seeking to annex to either the Alton or East St. Louis districts.

Among the points Wellman will discuss is an amendment to Senate Bill 1188 which would establish a 1972 deadline on new districts or annexations. After the deadline, the state board would be empowered to place within junior college boundaries all non-district territory.

The amendment was approved by the Illinois Senate June 17 and was recommended "do pass" by the House Education Committee's Higher Education Division June 23. Action by the House is pending.

At Springfield, to speed release of \$36 million in appropriated funds which the governor has not yet released for

building purposes, the Illinois Junior College Board has announced formation of a Junior College Construction Review Task Force.

The Task Force is to review working drawings and bidding figures on each of the 21 junior colleges currently having building programs in progress.

"Several cost savings" have already reportedly been isolated after one only review under date to be by the task force, at the College of Lake County at Grayslake.

Griffin said the union locals at Granite City Steel, Locals 30, 16, 67 and 68, have voted overwhelmingly to authorize their respective joint committees to strike in enforcement of contract demands. The joint committee of each local, with Griffin, make up the union negotiating team. These four locals represent about 2,800 workers.

A company spokesman said today that the company will adhere to a policy of not discussing negotiations while they are in progress and therefore had no comment on the contract dispute.

Griffin described the company's contract proposal as a series of revisions in present contract benefits "that would set the union back 70 years. If those provisions were accepted, it would bankrupt the community."

Negotiations have been under way for the past month. Wages and fringe benefits are not an issue since contracts here customarily follow the "Big Steel" pattern agreed upon in August.

The 16 points contained in the company contract demand, are as follows:

"It is essential that we have identical contract language to the nine Coordinating Committee companies in every respect if we are to remain competitive. It is mandatory that we dedicate ourselves to reducing the 97 cents per hour employment cost differential that exists between the steel industry and Granite City Steel Co. It is necessary that we cut costs, increase productivity, reduce manning, improve quality and improve service to our customers."

The company, therefore, must have a standard contract language now. We cannot operate this company at a profit unless we:

"1. Eliminate agreed-to-schedules and letters of understanding dated Oct. 30, 1965."

"2. Rewrite Safety Section so that employees must use all protective devices, follow safety practices and obey safety rules as a condition of continued employment."

"3. Eliminate helpers by installing apprenticeship programs in all Maintenance crafts (beginning with Local 67 and Local 16/68/68).

"4. Eliminate restrictive manning agreements so that work can be manned for productivity with Management determining the level of manpower required; this would apply to all operations."

"5. Eliminate restrictions on scheduling work on Sunday, notably Local 67 Footnote 2; Local 68 Footnote 2; and Local 30 Footnote 1, 15, and 18."

"6. Simplify overtime agreements so that they are less restrictive, easier to administer, and consistent with the provisions of the basic agreement."

"7. Eliminate the geographic restrictions on work practices. For example, one man moves material so far, then another picks it up."

"8. All Maintenance craftsmen to use the burning torch as a tool of the trade."

"9. Under Group Insurance Plan, provide full Coordination of Benefits section."

Workers Okay Strike At GC Steel Sept. 30

A deadlock in negotiations on a 16-point contract demand by the Granite City Steel Co. to the United Steelworkers Union has resulted in a membership vote authorizing a strike at any time after expiration of the present contract at midnight Sept. 30, it was learned today.

Thomas Griffin, subdistrict director of the United Steelworkers, said "the company is adamant in its demands on all 16 points and we (the steelworkers)

are just as adamant that they cannot and will not be accepted."

Griffin said the union locals at Granite City Steel, Locals 30, 16, 67 and 68, have voted overwhelmingly to authorize their respective joint committees to strike in enforcement of contract demands. Home Rule, Tax Rate Hike

By HARRY BARNES
Press-Record Staff Writer

Granite City became a "Home Rule" municipality under provisions of the new Illinois constitution Monday night in city council action approving a new tax levy that will raise the 1971 tax rate approximately 20 cents per \$100 assessed valuation.

In adopting a levy bill calling for extension of \$2,048,121 in tax funds, collectable in 1972, council members also approved an accompanying certification of Granite City as a Home Rule city—a factor that changes greatly the city's taxing program.

The new levy was adopted in a recessed meeting following a hurried trip to Chicago and a series of weekend meetings by city finance officials to determine the proper method of extending 1971-72 tax levy in compliance with the new constitutional provisions.

The council held up approval in its Sept. 6 meeting of a levy prepared on the same basis as those of past years which would have extended \$3.6 million funds—or about \$1.6 million more than was needed—had it been passed. The change in tax rate limits which are removed under the Home Rule articles is responsible for the difference.

The levy total is designed to produce approximately \$250,000 more in 1971 taxes to be collected next year, than the \$1.8 million collected for city purposes this year.

While a tax rate for this year cannot be projected accurately due to lack of assessment figures for 1971, a rate necessary to produce the \$2,048,121 levied Monday night, computed against the 1970 Granite City valuation of \$169 million, would approximate \$1.21 per \$100 assessed valuation.

On this basis, city finance officials expect this year's tax rate for billing Granite City taxpayers next summer to reach the \$1.21 figure, or possibly exceed it slightly.

This would result in an increase of 20 cents over the 1970 tax rate of \$1.01. The additional 20-cent rate would produce \$2,000 for each \$1 million of assessed valuation.

Actual Tax Extended
In preparing the new tax levy under Home Rule provisions, the city for the first time in many years was required to establish an "actual" levy extending the exact amount of taxes needed in excess of the city's other sources of income to meet expenses.

In previous years the city approved a levy in the same amount as the appropriation bill. Legislative tax rates limited the amount of taxes that could be extended for each fund, however, and the taxpayer therefore was protected against an excessive levy.

For example, last year's levy for the general fund totaled \$792,575, which was the amount also budgeted. The statutory limit for the general fund was 25 cents per \$100 assessed valuation. A 25-cent rate applied against the valuation of \$169 million produced only \$422,500—the maximum amount that could be collected.

Under Home Rule provisions, however, all rate limitations are removed and the city has unrestricted taxing power. Had the city adopted the first levy bill drawn a week ago—a total of \$3,675,981—that full amount

Fire Mental Health Coordinator

By GARY SCHNEIDER
Press-Record Staff Writer

David Buchheim, coordinator for the Madison County Mental Health (708) Board, was dismissed after seven months in

the position during a board meeting Tuesday night at the Quad-City Mental Health Clinic.

"I was fired," Buchheim said. But Ralph Yemm, board chairman, said, "He was hired on a temporary, month-to-month basis, and we felt we did not need a coordinator at this time."

Yemm said the board may hire another coordinator in January when there is a rush of work on new programs and that Buchheim would be welcome to apply at that time.

The coordinator was hired in a compromise between those members of the board who felt one was necessary, and those who felt it was the board's responsibility to review and approve new programs rather than giving that authority to a coordinator. As a result, Buchheim was not offered a yearly contract as are most 708 employees, but was hired on a temporary basis.

Believed Job Permanent
Despite the conditions of the hiring, Buchheim and several other employees believed that the coordinator was permanent and the temporary tag was only part of the compromise.

"It was not a matter of money or personalities," Yemm commented. He said there was "just no need" for a coordinator at the present time.

"They told me I was spending too much money too fast," Buchheim stated.

Buchheim, of Highland, had proposed an administrative budget of \$67,150 for next year.

as compared to \$34,750 this year. The hike included a raise for himself from \$12,000 to \$15,000 and the addition of a second coordinator and a second secretary.

"I wanted to add John Accorero as administrative coordinator so that I could spend my time as a professional coordinator to mental health," Buchheim said. "Instead, they said we didn't need a coordinator," he added.

"We just let him know we had no more need for his services and that he did not even have to show up at his office," Wayne Bridgewater, board member who introduced the

Costume Contest Set For 'Charity Days'

A total of 27 youths, health, civic and service groups will take part in the annual "Charity Days" festival at Namekoo Village Shopping Center Thursday, Friday and Saturday, Sept. 23, 24 and 25, James M. Henderson of Lueders Agency, project coordinator, announced today.

Volunteers staffing the booths this year are invited to wear costumes contemporary to Granite City's early days in keeping with the city's 75th anniversary year, Henderson advised. Prizes of \$25, \$15 and \$10 will be awarded by the shopping center merchants to those whose attire is judged most outstanding.

In that same meeting, however, the council voted to call bids on two new street improvements—Melrose and Oakland avenues—on an estimated cost of \$13,494 and \$10,000.

The action was taken on a motion by Alderman Sam Whitland, who attempted unsuccessfully to call a halt to engineering work on a halt to engineering work on all motor fuel tax street improvement projects that are not new at or near construction stage.

County Buys Missile Base

By MARION BARTOSIAK

The Madison County Board of Supervisors approved a \$25,286 as its remaining share of the federal emergency employment program, authorized purchase of part of the old Nike site at Marine and delayed action on a tax-sharing plan with townships during a meeting Tuesday night of morning.

The federal government has allocated \$306,000 to Madison County to place unemployed persons on public jobs, with the county providing 10%, matching funds for a total of \$441,000. An initial appropriation was approved by the board last month.

The program is to extend into August of next year.

The program here is being directed by Dan Churovich of Granite City, an assistant supervisor, who said 14 unemployed persons already have been employed with the initial funds, including four sheriff's deputies, three janitors, one clerk-typist, three park workers and three sanitation workers.

Six more were to be hired for the highway department, said Churovich, and another six by the Board of Health.

Churovich said the county would be able to reduce the \$300,000 because of a reduction of overall income tax payments.

Board members also asked the money with fire protection districts, decided to wait until the new county budget is drawn.

Hagnauer, chairman of the finance committee, said work on the new budget will begin Monday.

a bargain" and that if the county wished, it could be sold for a profit.

Several possible uses also were noted, as storage of county records and voting machines or use of the property, surrounded by a chain link fence, as a jail in case of riots.

Tax Sharing Plan
Continued consideration is to be given a proposal to provide a half of the county's share of income taxes to townships in exchange for property tax losses in township income caused by the removal of some personal property and homestead exemptions from the tax base.

Nelson, Hagnauer, Granite City Township supervisor, objected to a comment that Granite City and Alton Townships be excluded from any benefits.

He said the two townships pay their share of the cost of county services, and that the funds caused to reduce the town or general assistance tax rate.

It was estimated that \$350,000 would be available for the purpose, though after the meeting, Marshal Smith, assistant state attorney, said the amount probably would be less than \$300,000 because of a reduction of overall income tax payments.

Volunteers Counsel Adults And Children on Probation

By JOAN MURARO
Copley News Service

Springfield volunteers to work with adult and juvenile offenders, who are granted probation in Illinois courts, are now being recruited and trained in the first of several "volunteers in the courts" programs of the Governor's Committee on Voluntary Action.

Mrs. Josephine Oblinger, executive director of the committee, said the goal is to set up a "one for one" operation with probationers, with the volunteers backing up the official court probation officers who frequently have extensive case loads.

In Southern Illinois, the volunteer program is being set up on a circuit-wide basis, with a vol-

unteer group already in the process of recruiting and training the volunteers.

Known as the Southern Illinois Regional Volunteer Council Inc., the group will serve 16 counties. At a workshop on training, held at Herrin, 180 volunteers attended.

An executive director and part-time secretary are now at work in Herrin setting up the program, she said, with work-space, equipment and some supplies being donated by volunteer groups. One car dealer in each county will be asked to provide one vehicle each to implement the program.

Similar programs have been functioning for some time at Greenville, Wheaton, Quincy, Champaign, Peoria and in the Chicago juvenile courts with

noteworthy success in reducing the rates of probationers who get into further trouble with the law.

Now in the works are plans to start similar programs for the Belleville-East St. Louis and Rock Island-Moline areas, as well as an organization to serve Winnebago and adjacent counties, in addition to the Southern Illinois circuit group.

In one area in Southern Illinois, Mrs. Oblinger said, there have been only three full-time and one part-time court probation officers to serve nine counties.

In another area in the state, she said, the probation officer was a man over 80 years of age, who had a caseload of more than 600

juvenile and adult probationers. Now, a retired volunteer, is working eight hours daily, five days a week, coordinating the work of 85 volunteers.

Juvenile offenders also are being enrolled in the ranks of volunteers, Mrs. Oblinger said, with juvenile offenders who meet probation requirements and serve a specified amount of time in volunteer service programs having their records "wiped clean" at the end of their probationary period.

Vandals poured sugar in the gasoline tank of the auto of Harry Thompson, 931 Niedringhaus, the owner told police at 2 p.m. Monday.

Boy On Bicycle Struck By Car, Hospitalized

A 5-year-old Pontoon Beach boy was injured when his bicycle collided with the front of a moving auto in Gaslight Walk at 7:15 p.m. Monday, police reported.

Thomas Dickey, the son of Elwyn Dickey, Apt. 1, 4029 Gaslight Walk, apparently rode into the auto of Clifford Mason, 1925 St. Clair Ave. The boy's parents took him to St. Elizabeth Hospital where he was admitted in fair condition with a large hematoma to his forehead.

Mason informed Pontoon Beach police of the mishap and said the boy rode in front of him and he was unable to avoid striking the front of the bicycle.

Madison OKs Plan to Buy Road Salt from Venice

The City of Madison will purchase road salt this winter for \$2.70 per ton rather than the \$2.35 per ton paid last year. Under an agreement with Venice, Madison City Council voted Tuesday night to purchase about 50 tons of salt from Venice at a savings of about \$765.

Venice buys salt in quantity, primarily to keep ice from forming on McKinley Bridge, thus purchasing it by the truckload at a lower price. Madison has been purchasing salt in bags at \$25 per ton.

In another agreement, the Madison council approved the purchase and installation of a new fence around the dog pound owned jointly by Madison and Venice. The cost will be split on a basis of population, with Madison paying more than half.

The Venice council recommended approval of a bid by Burch's Coal & Fence Co., Madison, to install the fence for \$1,434, over a bid by Lamphe Fence Co., Granite City, of \$1,150.

The Venice City Council previously had approved the award to the low bidder pending approval by the Madison council.

Open Car Bids

Bids for 1972 cars for the Madison police investigator and juvenile officer were opened at the meeting and referred to the purchasing committee for study and a recommendation at the next council meeting Sept. 28.

Bids were: Butler Chevrolet, Edwardsville, 2-door, \$3,453, 4-door, \$3,476; Granite City Dodge, 2-door, \$3,500, 4-door, \$3,450; "Bo" Beckman Ford, Collinsville, 2-door, \$3,456, 4-door, \$3,194; B. E. Hohl Inc., Granite City, 2-door, \$3,465, 4-door, \$3,202, and Mathews Chevrolet, Granite City, both cars, \$6,897.

Bids for a new one-half ton pickup truck for use by the city health department were opened and referred to committee. The bids included trade-in to the low bidder pending approval by the department.

Bids were: Butler Chevrolet, \$2,231; Courtesy Motors, Edwardsville, \$2,171; "Bo" Beckman Ford, \$2,150; Mathews Chevrolet, \$2,139, and B. E. Hohl Inc., \$2,108.

Two bids were opened for mobile police radios and walkie-talkies and were referred to committee.

The lowest bid was from Motorola Communications and Electronics, St. Louis, offering two mobile units for \$2,280 and two walkie-talkies for \$1,588. The other bid was from A. E. Electronics Corp., St. Louis, with three mobile units for \$2,438 and two walkie-talkies for \$1,798.

Invest City Funds

Mayor Mike Saryk recommended the council approve the investment of \$125,000 in general fund monies into short term interest yielding accounts at the First National Bank in Madison. The council approved investing \$25,000 in a 60-day account at 4% interest and \$100,

000 in a 90-day account at 5% interest.

Arman Mike Sikora proposed an ordinance be drafted prohibiting the parking of trucks on the east side of State Street between 10th and 12th streets.

"These tractor-trailers park there all night and leave their motors running which disturbs the residents there," Sikora said. The aldermen approved drafting the ordinance which will be considered at the council's Sept. 28 meeting.

Elmer Smith, superintendent of streets, requested council permission to sell a 1960 one-half ton pickup truck and a sickle bar mower to the highest bidder. The council approved the sale and asked that sealed bids be submitted before the next meeting, with the items to be sold to the highest bidder. The truck and mower will be available for inspection at City Hall, Smith said.

The council approved payment of bills totaling \$23,556, including \$15,722 payroll for city employees, \$800 payroll for firemen, \$1,000 for aldermen's salaries and \$500 for aldermen's expenses.

Public Attitude Is Key to Crime Control-Howlett

Public attitudes, rather than numbers of policemen available, are the key to crime prevention, Michael J. Howlett, state auditor of public accounts, said Monday at Arlington Heights, Ill. He addressed the 70th annual convention of the Illinois Police Association; about 500 delegates attended, representing 21,000 law enforcement officers of all levels of government in Illinois.

"Crime has been rising steadily, not only in Illinois but throughout the U. S., Howlett said. "During the decade from 1960 to 1970, it rose 14 times as fast as the population.

"The average time between murders now is only 33 minutes. The average time between robberies is 91 seconds, and between auto thefts 34 seconds. There are four burglaries a minute in a 24-hour day.

"During 1970, the number of law enforcement officers working was exactly 100, according to the FBI Uniform Crime Report—a new record.

"It is no answer to suggest that we need more policemen. The problem of preventing crime is not so much the number of policemen we have as it is the attitude of the public toward the policemen we already have—and toward crime and the criminal.

If the public attitude is permissive to crime and suspicious or hostile toward policemen, we will have plenty of crime, no matter how many policemen we have.

"As President Kennedy told the governor of Alabama, any citizen may agree with the law of the land, but all citizens must obey it.

"Public order relies upon citizens to enforce the law themselves by observing it. Good citizens refrain from theft because it is wrong, not because it is feared a policeman will catch them.

"Respect for law begins in the home. Permissive parents are the creators of a permissive society. We can write laws, but we can't enforce them if the customs of the people modify them or set them aside."

Howlett said law enforcement should be the first responsibility of a policeman. "We have not trained our officers to handle broad social problems," he said.

"Policemen do not control economic cycles. They are not educated to remedy racial, religious or political prejudice.

"Their first job is to protect the lives and property of the citizens.

"It is a thin blue line, and it can hold its ground only if it is backed up solidly by the people it protects.

"Today police are shot at from rooftops, bombarded with rocks, bottles and bricks, tantalized and abused by mobs. There was an item in this year's budget of the governor for \$120,000 to construct and purchase two anti-sniper vehicles.

"We can't expect policemen to be perfect in every decision they make. There's only one place we can find new recruits—from the human race."

Infant of 2 Months

Found Dead in Bed

Steven Michael Mays, 2-month-old son of Mr. and Mrs. Fred Mays, 408 Central Lane, Ponton Beach, was pronounced dead upon arrival at St. Elizabeth Hospital at 9:25 a.m. today.

The infant apparently suffocated during the night. His mother took him to bed with her at 11:30 p.m. Wednesday, covered him and said when she awoke at 8 a.m. today, the baby was dead, according to a police spokesman.

The baby had been taken to the doctor last week for treatment of a cold.

According to the report, other children in the family ran to the next door neighbor, Norman Jones, 4066 Central Lane, and asked him to call the Ponton Beach police who, in turn, notified the Madison County Sheriff's office.

Details are given in the obituary column.

It would have been extended by the county clerk under the new Home Rule provisions, which would qualify a Home Rule city, a municipality must have a population of more than 25,000 people, the new provisions to the county clerk. Such certification was included in Monday night's tax levy bill.

Levy is Filed

The new tax levy was filed Tuesday — the deadline — with County Clerk Eulalia Holtz under state law. All cities must file municipal tax levies not later than the second Tuesday in September.

The difference in operating costs between the amount of the tax extension and the total budget is made up of the city's other sources of income. These include state income tax, parking meter fees, state sales tax, business licenses, inspectors' fees and fees for other city services. The city receives approximately \$1.2 million per year in such funds.

The tax levy for \$24,317 in the general fund was extended as a total figure without a breakdown as to departments, while the levy figures for the city's separate accounts in convention service, a hospital for mental health patients affiliated with St. Elizabeth Hospital, and a community mental health team to expand the reach of the local programs.

Foster Home Rates

Returned to committee for further study was a resolution by the state charities committee to set standard rates for foster home care.

The rates, suggested by the circuit court, set monthly allotments of \$97 for children of 5 to 9, \$103 for those 10 and 11, and \$109 for those 12 and over. It was pointed out that each case was different and separate consideration should be given on the cost of each to the foster home.

Robert Ford of Wood River Township, committee chairman, reported that the board had approved an emergency resolution to seek bids for the construction and repair of the roof of the court-house annex (the old Edwardsville Post Office) which developed leaks and damaged furniture, equipment and records in the heavy rain of Sept. 5.

The building was repaired and remodeled about a year ago when it was obtained by the county, but not the roof.

Dobrey Slough Plans

Aired at Meeting

A proposal by Mayor Donald Partney of Granite City that drainage from Dobrey Slough be turned into the Nameoki drainage canal was rejected Tuesday night at a meeting of approximately 60 residents of the Dobrey Slough area at the Nameoki township hall.

John Gillou, chief engineer of the Illinois Division of Waterways, told Partney that the capacity of the Nameoki drainage ditch was insufficient to handle the present flow of water during heavy-rain periods without adding to it the additional burden of waters from Dobrey Slough, Lynch Avenue and other areas of north Granite.

The meeting, attended by area legislators, township and levee district representatives, aired details of plans by the waterways division to install drainage facilities from Dobrey Slough to the Alton and Southern tracks near a Carroll Road, thence to Bishop's Slough and into Horseshoe Lake.

Concern was expressed by Horseshoe Lake landowners that the lake be maintained at a low level, William "Mike" Eberst, president of the East Side Levee and Sanitary District, said he plans to meet soon with Granite City officials to discuss the company's flow of water into Horseshoe Lake.

Mrs. Helen Hawkins, 2600 Angela Drive, who has represented residents of the area in the campaign to secure drainage of the area, presided at the meeting.

It was pointed out that the drainage installation now hinges upon acquisition of three pieces of right-of-way. Condemnation proceedings to acquire the easements have been filed in circuit court, it was pointed out.

Improvements on Dewey, Amos and Manley Avenues.

This action confronted the city with a projected \$303,000 deficit in its motor fuel tax fund by the end of the year.

In renewing his effort Monday night to halt all further motor fuel tax designing on uncompleted projects at this time, Whitmer told the council Monday night that he and Aldermen Emerald Daves and Everett Morien had talked with Kenneth Kleberger of Research Planning & Design Associates, consulting MFT engineer for the city, and that Kleberger said he did not believe the state will approve contracts on the Melrose-Oakland and Benton Avenue jobs because of the city's shortage of motor fuel tax funds.

"Kleberger also told us that he has not even started work on many of the proposed MFT projects listed in last week's report," Whitmer said. This was in reference to 14 separate projects which are scheduled for planning by the council, but have not yet reached actual planning stage.

The front of a car of Dorothy Grams, 2127 Edwardsville Road, parked on 14th Street near her home, was struck by a hit-and-run driver, it was reported at 2:15 a.m. Wednesday.

Kleberger admitted that he had made the remarks to Whitmer, Daves and Morien, and that he had suggested to one alderman prior to the Sept. 6 meeting that the bid call on the Melrose-Oakland and Benton Avenue jobs be delayed.

Kleberger said yesterday he had not been notified of the council action to terminate preliminary plan work on unsigned projects, but that he intended to discuss the matter with city officials.

The only dissenting vote on the 14-man council against the motion to discontinue MFT planning was cast by Alderman Paul Schuler of the Sixth Ward. Alderman Gerald Parnley of the Sixth Ward was absent.

Injuries May Hamper Grid Warriors In Opener Here Friday With Althoff

By WALTER F. STRANGE
Press-Record Staff Writer

The Granite City High School football Warriors will take the field at home for their opening game Friday at 8 p.m. against the Belleville Althoff Crusaders with the possibility of three GCHS lettermen being out of action due to injuries.

Defensive back Kirk Hulse, 5-11, 162, broke his ankle Monday in practice. Stan Stajduhar, 5-11, 176-pound halfback, has an injured arm. And Mark Coy, 6-0, 167 defensive halfback, was injured in a softball game this summer.

"I am not pleased with the fumbling and with our timing so far," Head Football Coach Wayne Williams told the Press-Record this week. "Maybe it's the heat. But they just have not started to click like a winning club yet."

The Althoff Crusaders will be playing the Warriors for the

first time since 1968, when the two teams tied 13-13.

Glenn Schott is the head football coach for the Crusaders. He has been the offensive and defensive line coach for the past eight years, and this is his first year as the top mentor.

Playing in the Bi-State Conference, the Crusaders had a 4-5-1 (won, loss and tie) overall record last season, with a 3-5-1 conference mark.

Schott will have 15 returning lettermen, and according to the Crusaders coach, they will run from the split-T and I formations.

The backfield is made up entirely of returning lettermen. Mike Abegg, 6-4½, 220 senior,

will play quarterback and is reported to be effective in the air, as well as fast on his feet.

Other Belleville players in the backfield, all seniors, are Robert Blaha, 6-1, 205 fullback, John Lehman, 5-8, 170 halfback, and John Weiss, 5-8, 162, halfback.

The probable offensive line includes Crusader Dennis Lanter, 6-1, 190 senior, at center and Tom Hartmann, 5-10, 192 senior, and Fred Halvach, 5-11, 182 senior, guards.

Tackles will be chosen from Kim McFarling, 6-2, 215 senior, Blake Kaelin, 6-1, 198 senior, and Bob Mueller, 6-0, 190 senior. Alternating at the end positions will be Dave Fohrner, 6-2½, Pat Cook, 5-8, 145, junior, and Jack Kloess, 6-0, 165, senior.

The probable starting line-up on offense for the GCHS Warriors will see in the backfield Joe Wallace, 5-11, 205-pound senior, at quarterback; Gary Lively, 5-9, 173, Chuck Logas, 5-9, 172, senior, at one halfback post; and either the ailing Stajduhar or Jon Stagner, 5-4, 150 junior, at the other halfback position.

The Warrior center will be either Tom Kalert, 6-3, 190 senior, or Walt Reinhardt, 6-2, 220 junior.

Left guard will be Brad Hiles, 5-11, 196 junior and right guard will be Dave Macios, 5-7, 145 junior.

Terry Eddieleman, 6-3, 225 senior, will be at left tackle and the right tackle will be Craig Stephens, 5-11, 240 senior.

Brad Weiss, 5-11, 197 junior, will be at right end and Kevin Dyer, 6-3, 155 senior, or Jim Childers, 6-2, 166 senior will be the other end.

The Warrior defense will see Randy Knucha, 5-7, 202 senior, at middle guard, with Chuck Kraus, 6-3, 205 senior at left tackle, and Mike Pedigo, 6-1, 220 senior, at right tackle.

Left end will be Jeff Worthen, 5-11, 183 senior, and right end will be either Barry Loman, 5-9, 170 junior, or Dan DeRuntz, 5-11, 157 junior.

Linebackers will be Wallace and Kalert.

Cornerbacks are not definite yet but will be either William Arnold, 6-0, 166 junior, Mark Whitworth, 5-9, 161 senior, or perhaps Bob Wiggins, 6-0, 155 senior.

Safety position will be covered by either Dave Carmody, 5-10, 157 senior, or Macios.

Warrior fans will find that 1,800 new seats have been installed at the GCHS football field, and that the seating has been changed for the home spectators.

GCHS fans are to sit on the same side as the press box and in both end zones. The new seating will give the local spectators considerably more space.

One section of seats at the north end of the field will be reserved for the school band. Visitors will occupy two-thirds of the side opposite the press box, the home section last year.

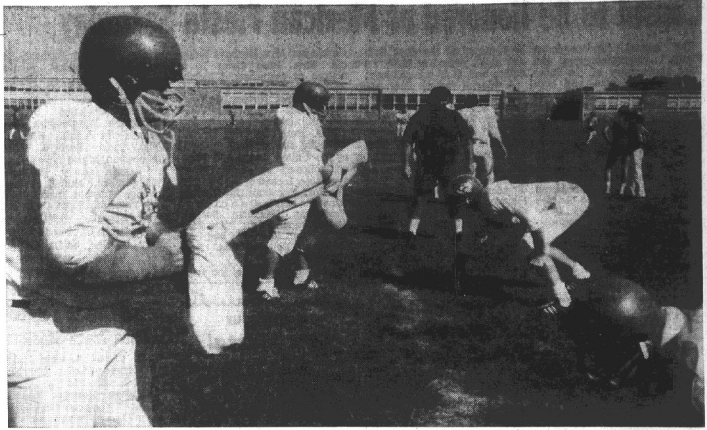

Softball Champions Honored At Banquet

Thirteen girls from Louie's Market's championship junior high school girls' softball team were treated to a steak dinner by their sponsors Saturday night.

The banquet was held at Ravanel's Restaurant. The girls were accompanied by their team manager, Omar Ronk, and coach, Ted Gegus.

Ronk presented each girl with a trophy for winning the season and playoff championships. This is the third year the team has been together and the first year it has claimed the championship.

Girls honored were Vickie Burpee, Darla Cox, Cindy Brooks, Diane Daugherty, Tammy Duff, Sharon Eddieleman.

WARRIOR LINE GETS READY for Friday's home opener against Belleville Althoff. Warrior Woody Lovacheff, tackle, braces himself for an attack by center Tom Kalert, at the far right; second from right, Marty Rapp, tackle, is about to be charged by end Terry Eddieleman. Line Coach Stan Wojcik stands in the center.

Triple Header Race to Close Scheduled Season at Speedway

A triple-header championship event featuring midgeets, super sprints and late model stock cars is planned tomorrow night as the last scheduled race of the season at the Tri-City Speedway.

Ralph Kiesling, track promoter, commented that the special program will mark the end of the scheduled events but that several Sunday afternoon races may be planned before the track closes.

Tomorrow's race will be the last for at least two weeks, Kiesling indicated.

Bobby Jones, of Danville, who has been devouring all super sprint competition here during the last month, will have an opportunity to prove his talent in another class as he takes the wheel of Larry Kirkpatrick's midgeet for the competition in that class.

Kirkpatrick has been unable to race since suffering a broken left arm and other injuries in a mishap during the race program at the Iowa State Fair four

weeks ago. Jones also will compete in the super sprint division tomorrow night.

Jones has walked away with the point lead in the super sprints despite efforts by Bill Utz of Sedalia, Mo., to regain the top spot which he held through the first half of the season. Utz will have to fight hard tomorrow just to keep his Spalding of Pontoon Beach from clinching the second position.

Spalding has been running third to Jones and Utz in the super sprints recently but has been the undisputed king in the late model stock division, winning the last three consecutive feature races.

The local driver will compete in both super sprint and late model cars but the midgeet which he normally drives here, the Gus Shom Offy, is reportedly in pieces in Shom's St. Louis garage and will not be ready for action.

The race has been billed as a championship event because it will likely be the last program in which points are paid to the drivers. Drivers finishing with top points in each division will probably be declared the track champions after the season ends.

Although Jones has the super

sprint point crown (worth \$1,200 at the end of the season) all but "sewed up", the championships in the other divisions are very much in dispute and will likely be decided tomorrow.

Close Point Race

Spalding is bunched in a close race with Bill Myers of Rosewood Heights and Bobby Stanton of East Alton for the late model crown and any of the three could emerge on top with a successful night.

The midgeet crown likewise is up for grabs with several drivers within reach of the top position.

The announcement that the program would end the scheduled season came as somewhat of a shock as prior indications had been that several Sunday afternoon race programs would follow the close of the Friday night series. Kiesling explained his decision was based on several high purse races that will be run in the Midwest Sunday

afternoon races were held. Qualifying laps will begin at 7 p.m. tomorrow with racing to begin at 8:30.

Grid Trojans Open Against Central Here at 4 Friday: Both Rebuilding

When the Red Wings of St. Louis Central High School wing their way to the home field of the Madison Trojans for a grid battle Friday beginning at 4 p.m., two friends and former teammates will coach the opposing teams.

Head Red Wing Football Coach Bob Haller and the Madison head coach, Al Vonder Haar, were classmates at the Kirkville, Mo., State Teachers College and formerly played as teammates on the St. Louis Bombers rugby team.

Haller is in his second year at Central and has 10 years of coaching experience. The Red Wings had a 0-10 (won-los) record in the St. Louis Public High School League last year.

"We have 10 lettermen returning and we are in a rebuilding situation like Madison," Vonder Haar said. "We'll be using a multiple offense—the T, I, line and slot wing."

The backfield for Central will consist of Larry McMiller, 59, 150-pound sophomore, at quarterback; Charlie Cooper, 64, 190 junior, left half; Eddie Walder, 5-10, 200 senior, fullback; and Andrew Roberts, 5-9, 150 junior, right half.

The Red Wing line will be Robert Pullen, 6-0, 165-pound junior, left end; Ken Hernton, 5-10, 160 junior, left tackle; Rodger Gibson, 5-10, 170 sophomore, left guard; Doyle Lawrence, 5-10, 170 senior, center; Derrick Webster, 5-11, 185 senior, right guard; Marvin Coleman, 5-10, 200 senior, right tackle; and Emanuel Johnson, 6-1, 175 senior, right end.

Newsmen at Quarterback
The tentative offensive lineup for the Madison Trojans includes John Newsome, 6-4, 185 junior, quarterback; Chandler, 5-11, 170 senior, running back; Roger Glasper, 5-8, 150 senior, running back; and Charlie Johnson, 5-9, 185 junior, in the wing back slot.

The Trojans will have Chris Stanley, 6-0, 200 sophomore, as right end; Milton Bennett, 6-2, 200 senior, right tackle; William Tyler, 5-11, 220 junior, right guard; Ron Stern, 5-10, 180 senior, center; James Turner, 6-0, 175 sophomore, left tackle; and John Prothro, 6-0, 185 senior, split end.

Guards on defense for MHS will be Rick Woodard, 5-9, 230 senior, and Ivan Simms, 5-11, 200 sophomore. Tyler and Bennett also will be defensive ends.

Randy Graville, 5-9, 170 junior, right half.

TROJAN OFFENSIVE. The starting lineup for the Madison squad against Central High School of St. Louis is shown during practice this week. In the line, from left, are Chris Stanley, end; Milton Bennett, tackle; William Tyler, guard; Ron Stern, center; James Turner, guard; Ivan Simms, tackle, and John Prothro, end, and backfield, Charlie Johnson, wing back; Carl Fonville (doubtful starter) and Roger Glasper, running backs, and John Newsome, quarterback.

lor, and Carl Fonville, 5-9, 160 junior will be linebacks.

Defensive Backs
Trojan defensive halfbacks will be Eugene Mueller, 5-10, 170 junior, Donald Black, 5-7, 160 junior, and Glasper.

Scouting reports from Central's game against DeAndre Catholic High School Friday were encouraging as Central fumbled away the 22-0 game. Of six Central fumbles, three were recovered by linemen and returned for touchdowns.

Another fumble, on Central's 10-yard line, cost it another six points. "The offense misaligned the ball," Vonder Haar commented. He said Central shows strong running and passing possibilities and has a rugged defense, despite numerous errors which cost it Friday's game.

"I would say we will have a very good game here Friday," the coach added.

The latest MHS scrimmage followed a day of rest, the first the 35 participants have had since the season began Aug. 25. "We're still behind schedule

Cougar Soccer Team Sets for Tournament

Coach Bob Guelter of the Southern Illinois University Southwestern soccer team believes firmly in playing the best opposition available.

His Cougar kickers opened their season Saturday with a 2-0 victory over the Ottawa University Braves at Ottawa, Kan.

It was a brutally hard-fought game, in the European tradition, with emphasis on defense. The small (1,000) Baptist Ottawa University kickers held nationally-ranked SIU-SW scoreless through three tough periods. The Cougars' overall depth, better condition and discipline finally paid off at two minutes into the final quarter when a tired Ottawa defender grabbed the shorts of stoutly built and hard-charging Tommy Galati in the penalty area. A direct penalty kick was awarded.

But John Caranza, Cougar senior co-captain and candidate for All-American honors, booted the ball past Ottawa's Eddie Knight to give SIU the only score it needed to rack-up its first victory of the new season. Nine minutes later Tom Twellman, a sophomore, set up a goal when he dribbled down the left side of the field, feinted the Brave defender out and deftly fed the ball to Caranza, who blasted the ball on what, for all practical purposes, was equivalent to another direct penalty kick.

SIU-SW's defensive battle with the Ottawa club, which is made up of European players, Guelter received a boost from his defensive players, led by goalie Rick Benben who was sensational.

Benben was brilliantly backed by his two fullbacks, Rich Neitzner and Denny Driscoll. Tall and rugged Vince Fassi, at center halfback, was an Alcindor in front of the goal, while Tim

Putman, Kevin Howe and Galati, at the halfback slots, were principally responsible for holding the Braves to only nine shots on goal compared to the Cougars' 23.

On the offense, while Caranza scored both goals, SIU-SW got standout jobs from ball control artist John Delinowski, Twellman, Chris Caranza and Tommie Howe.

Guelter was pleased with his team's performance in its first outing. "I knew Ottawa was a tough team, otherwise they wouldn't have asked to play us. I also knew there was a certain amount of risk to our ranking should we lose to them, but I felt I should take the risk to give my players some tough competition right from the starting gun," he said.

Guelter explained that Ottawa finished fifth last season in the national tournament of the National Intercollegiate Athletic Association. "Coach Bob Schooner, who recruited his players from Europe, felt that he was ready, too," Guelter said. They nearly were.

The Cougars will travel to Ontario, N.Y., this week to finish part in the Hartwick College pre-season tournament. In addition to Hartwick and SIU-SW, the other teams are Dartmouth and the U. S. Naval Academy. All four teams made it to the NCAA regional finals last year, with Hartwick advancing to the finals before bowing, 1-0, to the eventual champion, St. Louis University.

Schedules Available
A limited supply of fall and winter athletic schedules are available from the receptionist at the Granite City School Board office, 20th and Adams streets, according to Joseph Fredra, athletic director.

GREATER METROPOLITAN AREA to be served by the new School of Dental Medicine at Southern Illinois University-Southwestern shown by Dr. Naseeb L. Shory, director of the Division of Health Services for the dental school.

New Dental Students to Learn Needs of Public

The community for the School of Dental Medicine at Southern Illinois University-Southwestern includes more than one million residents in the greater metropolitan area.

The director of the Division of Health Services for the dental school, Dr. Naseeb L. Shory, is concerned with this community and how professional dental school students and the school can relate to this mass of people.

"It used to be, and in many cases still is, a practice in dental education to lock the students into a university situation for four years and then expect the student to become a contributing member of society outside the walls of the school," Dr. Shory explained.

"We can't do that anymore. We're going to show the students the outside of the university and do so in learning situations. Everything must relate to how the profession is and will be practiced in the outside world."

Dr. Shory believes it is crucial for the student to know his patients—how the person lives and what he thinks, what he wants from life and what his individual wants and needs are.

His division will be responsible for working with other members of the school faculty and community health and civic personnel to educate the dental students to the entire life style of the patient.

"Filling holes in teeth in a ghetto clinic is no different than filling holes in teeth in a private office," he stressed. "It's the people we must know and understand."

Dr. Shory said that dental students in the past had a preconceived idea of the type of patient they would serve after graduation. "We must broaden that idea, putting public service and the dental health needs of all segments of society in proper perspective. The public will not allow any degree of society to do without adequate health care," he said.

Addition to St. Mary's Hospital to Be Blessed

The Most Rev. Albert R. Zurawski, D.D., Bishop of Belleville, will dedicate the \$5 million new addition to St. Mary's Hospital, East St. Louis, Sunday, Sept. 26 at 3 p.m. The blessing of the new addition, which was begun in 1968, will be followed by a program on the Missouri Avenue lawn.

Paul Simon, lieutenant governor of Louisiana, will be the keynote speaker. A flag that has flown over the Capitol and was sent to St. Mary's by Congressmen Melvin Price for the dedication will be presented and raised by Price, Mayor James E. Sullivan Sr. will welcome the gathering.

Sister M. Clarice, provincial of the Poor Handmaids of Jesus Christ, the religious order which operates the hospital, and Edwin W. Murphy, executive director of the Association of Ancilla Domini Hospitals, Chicago, will welcome the guests.

Dennis Day, tenor of the Jack Benny show for 24 years, will sing "Bless This House" and other favorites. Sheryl Lynn, vocalist who has been a panelist on "What's My Line?" will entertain during an open house.

Accompanist will be Bill Kramer, official organist of the St. Louis Blues ice hockey club. The national anthem will be sung by St. Louis entertainer Carl Kunze.

Open house and a tour of the new wing will be held until 6 p.m. following the dedication program. The public is being invited to the dedication ceremony, open house and tour of the new facilities.

SIU-SW Choral Society to Begin Season Tuesday

The Southern Illinois University-Southwestern Community Choral Society will begin rehearsals for its 13th season at 7:30 p.m. Tuesday in room 1402 of the Peck Classroom Building.

According to director Leonard Van Camp, membership is open to all interested adult and high school singers, as well as SIU-SW students and staff. "If you like to sing, join us Tuesday night," the director of choral activities said.

No auditions are held, Van Camp explained, because experience has shown that those who will dedicate one evening a week to the rehearsal of great choral music are usually talented singers who read music adequately enough to profit from the experience and make a contribution to the society.

Teachers, salesmen, stenographers, electricians, engineers, nurses and many other professions are represented in the organization's roster of members, along with university students, faculty, staff and members of their families.

The choral group will begin rehearsing for the Dec. 5 performance of Lloyd Pfautsch's "Day for Dancing," which the singers will do in cooperation with the Dance Theater, directed by Al Wiltz of the Fine Arts faculty.

The honor maid, Miss Janet Serini, and bridesmaids, Misses Donna, Diane and Denise Spohr, sisters of the bride, were dressed alike in floor-length gowns of deep purple crepe.

Couple Exchanges Vows At Concordia Lutheran

Concordia Lutheran Church was the scene of the wedding Sept. 4 of Miss Katherine Lee Arbeiter, a daughter of Mr. and Mrs. Charles V. Arbeiter, 2440 State St., and Randy L. Fowler of Murfreesboro, Tenn., son of Mr. and Mrs. Woodward L. Fowler, 2289 Delmar Ave.

The Rev. Arvin Twietmeyer heard the vows of the couple at 7 o'clock in the evening before the altar adorned with white flowers. The ceremony was performed by candlelight and a program of wedding music was provided by Miss Debbie Fichte, organist, and Mrs. John Karbaski, soloist.

The bride's gown was fashioned of ivory satin and silk organza with appliques of lace and hand-sewn pearls. It was made on princess lines with a pleated ruffle around the bottom of the long skirt.

A full length mantilla veil was edged at the sides and bottom with the same lace as that used on the dress. Appliques were also scattered throughout the veil which was secured with a crown of lace and seed pearls. The white Bible carried by the bride was adorned with Sweetheart roses, Stephanotis and white satin streamers.

The honor attendant, Miss Joan Bunselmeyer, a cousin of the bride, wore a gown fashioned of brown crepe with candlelight lace on the bodice and full, sheer skirt. The bride's skirt was gathered to a high waist, with brown covered buttons down the front and on the cuffs. A bow was placed at the back and a waist-length ivory illusion veil was trimmed with lace appliques, a brown bow and streamers. She carried a bouquet of blue 'mums tied with ivory ribbon.

The bridesmaids, Miss Pam Peters, Miss Lu Anne Bell, Mrs. Mike Graklanoff, a sister of the bridegroom, and Miss Retha

Fowler, also a sister, wore gowns of blue made similar to that of the honor attendant and carried blue 'mums.

Paula French and Kevin Fowler, both cousins of the bridegroom, served as flower girl and ring bearer. The former, dressed like the older attendants, wore blue and carried a single blue chrysanthemum.

Dennis Reutebach was best man and the corps of groomsmen and ushers consisted of Steven Arbeiter, a brother of the bride, Norman Keim, James Hanson Jr., cousin of the bride, Roy Fowler, brother of the bridegroom, Gary Arbeiter, a cousin, David Watkins, William Watson, Richard Lesko and Roger Miller.

For her daughter's wedding Mrs. Arbeiter wore a sleeveless blue knit dress, gray accessories and a corsage of white Sweetheart roses on a background of green. The bridegroom's mother was in an apricot-colored dress with matching accessories and a rose corsage backed with greenery.

A buffet reception was held at the church parish hall after the ceremony, with Mrs. Lee C. Harlan III, the bride's cousin, in charge of the guest book. The newlyweds will make their home in Murfreesboro, Tenn. The bridegroom, a 1970 graduate of the Granite City High School, is a second year electrician apprentice in Nashville, Tenn.

The former Miss Arbeiter also graduated from the local high school and attended Concordia College in St. Paul, Minn., the past year. She will be a sophomore at Middle Tennessee State University in Murfreesboro this fall.

The bridegroom's parents gave an informal barbecue rehearsal party last week at Wilson Park.

Tentative plans were made to hold a benefit dance within the next three months, with all proceeds to be donated to Granite City crippled children. Also discussed was an open meeting, to be conducted this fall, dealing with the accomplishments of Illinois Gov. Richard Ogilvie.

As one of the club's fund-raising projects, a garage sale was scheduled for Oct. 2 at 1519 Lindell Blvd., and arrangements were discussed to attend a joint meeting with the Edwardsville Republican Women's Club Tuesday, Oct. 19 in Edwardsville.

Rep. Robert J. Walters will show a film, entitled "Republicans for Procedure in Springfield," at the joint session, it was announced.

Dear Nana -- Magazine Gives Ideas on Using Up Old Scraps; Nickname Sought

By JACKIE STEFANICH
Copley News Service

Dear Nana: I read and enjoy your column very much. I would like to send some of my canceled stamps to the grandson of the lady who wrote you for stamps.

I have a son who lives in Europe and his letters contain some very pretty stamps from different countries.

I have started several children on their collections and they all enjoy this hobby as I have for many years.

I'm enclosing a self-addressed stamped envelope and would appreciate it if you would forward same to the lady mentioned above. I've also enclosed a few stamps you might like for your grandchildren's collection.

S. C. L.

Dear S. C. L.:

Thank you for the stamps you sent for my grandchildren's collection. There were many different ones among them that I didn't have.

And, I'll be glad to see that the young lad you're referring to gets his. I'm sure he'll appreciate your kind offer.

Dear Nana:

Enclosed is some literature and an order blank for a magazine I thought you as well as your readers might be interested in.

It's a magazine filled with ideas on making things out of scraps of all kinds. It's published 10 times yearly and has good ideas for people of all ages.

I've been receiving these mag for about 7 years and have

loaned copies to children, teachers and adults who have found things in them they wanted to make for themselves.

Mrs. L. E.

Dear Mrs. L. E.:

Thank you for your information about the Pack of Fun magazine and order blank you enclosed. I've already sent for a subscription and I'm sure many of my readers will be interested in this type of a hobby book.

Dear Nana:

Although I think the prospective grandmother who doesn't want to be called grandmother is very foolish I find myself in a similar predicament. It's not that I don't want to be called grandmother but there are already too many grandmothers and great-grandmothers in our family.

So I was wondering if you had a list of nicknames for grandmother or some suggestions for cute names that we can use.

We already have a Nana and Granny in the family so those two are out.

My husband thinks I'm silly for bothering you with such a trifling question. But, I'm sure you've received many letters from grandmothers who have a nickname.

My daughter isn't expecting her baby for some time so we have time to select a name for me.

Dear J. S.:

Although most grandparents let their grandchildren select an appropriate name for them I've sent you a list of nicknames that are synonymous with

grandmother which I've collected through the years and some my readers have sent me. I'm sure you'll be able to find one that's suitable for you.

What about grandpa? Doesn't he rate one, too? And by the way what's the baby's name to be? I'm sure we'd all like to know.

Dear Nana:

I'm sure glad someone has finally stood up for the elderly being place in a rest home. And God bless those of you who run them.

Some time back I had to put my aunt in one. She was the youngest sister in a large family and an old maid. My aunt had out-lived everyone in the family. And there was no one left that was well enough to look after her.

The owner of the home is even helpful in keeping her mail straight so I can handle her affairs. My aunt doesn't know a bill from an ad anymore. And she doesn't have enough money to spare that she can be foolish in what she spends. Yet and the other rest home owners have my vote of thanks in the care you give the elderly. Nephew

Dear Nephew:

I'm sure that all of us in the rest home business thank you for your kind words. But I doubt that all the "aunties" will share your opinion.

Questions on problems of the elderly may be sent to Copley News Service, P. O. Box 180, San Diego, Calif. 92112.

Why do more people choose
Turf Builder for their Fall feeding
than any other fertilizer?

Because TURF BUILDER is the Trifoliated fertilizer. Its nutrients are locked in and are released only as the grass can use them. So there's no spindly surge growth to cause extra mowing, and no wasteful loss of nutrients due to leaching. Instead, your lawn grows thicker, greener and sturdier. Stays that way longer too.

Illinois Law Bans College Hazing

(Tri-City and Illinois Bar Associations)

Among other things, autumn means college students are returning to campus.

Some years ago, this might have meant that college deans would have their hands full with freshman hazing, but not today, thanks to the Illinois legislation.

Whatever other troubles may crop up on campuses this fall, hazing should not be one of them. It is a misdemeanor for

students to hold up other students to ridicule through hazing — mocking them to amuse themselves.

The law provides that if anyone engages in the practice and it results in an injury to the student who is the object of the derision, it can mean a penalty of up to six months in jail and a \$500 fine.

The law banning hazing is intended to bring order and decorum to the college campus.

Winter Wonderland

By
BILL
WINTER

Editor,

Notes on Actors, Princes, Daniel Boone, Jesse James and Zykron

When my family is out motor-ing, a frequent request is that we stop to view statuary, fountains and other lawn decorations offered for sale.

It's a colossal exaggeration, of course, but I sometimes comment that what would really please the feminine part of the family is a yard display approximating that of the front lawn of Caesar's Palace in Las Vegas.

For those who have not seen it, I'll relate that the plush and ornate hotel is reached by traversing a long driveway surrounded by a vast and spectacularly lighted series of sculptured fountains. It's quite a sight.

With this in mind, my eye was caught by a report from the oasis in the Nevada desert, Caesar's Palace, it seems, has just celebrated its fourth anniversary with a four-day event called "Winter Wonderland." No, I won't charge them anything for using the name of this column.

As a feature of the anniversary the hotel invited 20 titled Europeans and paid for their air fare, meals, rooms and social excursions. The young nobles, mostly German, French, were joined by 1,000 American guests, including actors, sports celebrities and casino "high rollers." Gambling was permitted but was far from being the only activity.

Winter Wonderland included two \$100,000 dinner dances in the hotel ballroom, which was turned into an "ice palace" despite the 110-degree temperature outdoors.

All was in white—the walls, ceilings, carpeting, dance floor, tables and chairs, the 2,000 chrysanthemums and the dozens of live doves in cages.

Six hundred newly-cut evergreen trees were covered with shredded styrofoam resembling snow. Bubble machines blew artificial snowflakes at the formally-attired dancers. Mirrored domes reflected the "snowfall" against the walls.

The description indicates it was quite a party.

And only a cad would accuse the princesses, princes, movie stars and gamblers of "conspicuous consumption."

Where do Quad-Citizens and Illinoisans spend their leisure time? Well, for a starter, there are such places as parks and lake homes and golf courses and that comfortable chair near the television set.

We used to think that most Illinoisans select Colorado as the place to spend part of their summer. When we attended a variety of ranch-setting gatherings in Colorado as tourists, the state of Illinois led every time in informal surveys of where the guests desired.

But now we have a definitive answer. A report from Oneida, Leasburg, Mo., and Meramec Caverns, Stanton, Mo., discloses that Illinois leads all 50 states in the number of people visiting the two caves. In fact, there are twice as many people from Illinois as from any other state.

So there you have it. If this community seems deserted on some weekends, it's because

everybody is out of sight, below ground level, walking about Onondaga in the tradition of Daniel Boone, who discovered it, and wandering around Meramec much like Jesse James, who used it as his hideout in the 1870s.

Thanks to the Granite City Diamond Jubilee, among other reasons, we didn't do as much traveling this summer as we have in some past years. One of the events we didn't attend was the DuQuoin State Fair, which ended its 49th annual session on Labor Day.

What is so heartbreaking about this omission in our summer is that a roller coaster ride is highly regarded by the youngest member of our family and DuQuoin this year offered the Zykron.

What is a Zykron? Why, it is the world's largest portable roller coaster.

It was set up on the southeast corner of the circus grounds at DuQuoin, having been transported to Illinois in five large trucks.

The Italian-made ride was provided by the Degeller Amusement Co. of Stuart, Fla., which moves back and forth between Florida and Michigan and was making its debut at DuQuoin.

Three days and 500 man-hours were required to erect the monstrous ride and put it into first-class working order. The ride is said to be "very colorful" and its most crowd-pleasing aspect is a 35-foot perfectly vertical dip.

Sorry we missed it. Or am I?

What is unique about our local university, the Southwestern campus of Southern Illinois University?

Many things, but if you're pressed for a quick answer, keep in mind that it currently popular word, "ecology."

A unique water resources technology program—to train graduates in air pollution control, waste treatment and water resources—is being inaugurated here this fall.

The two-year course was developed two years ago at SIU's Vocational-Technical Institute and was intended chiefly to train technicians for water and sewage treatment plants. Now, moved here, the instruction has been expanded in scope and depth and will become part of a new sanitation technology engineering course at SIU-SW.

Dean Laurence R. McNaney of the Science and Technology Division says the water resources curriculum will be an integral part of the program which we hope will strengthen our new bachelor of science program in sanitation technology.

The Illinois Board of Higher Education approved the program this summer, effective with the September 1970.

Graduates of the program will have a broad area of competence because of the increased scope of the training. "In smaller communities, they should be capable of handling some of the functions of the city engineer," McNaney reports.

It was set up as part of a policy of developing curricula to meet specific public needs.

Press-Record, Illinois Employment Service Cooperating to Seek Jobs for War Veterans

With more than 1,500 Quad-City veterans of the Vietnam war back on the "home front," it would be pleasant to report that all have made a smooth transition to civilian life. Unfortunately, the extent of unemployment among such veterans is even greater than that of the general population.

To help seek a remedy, the Press-Record beginning immediately—with the cooperation of the Illinois State Employment Service—is initiating a program of free work-wanted advertisements to aid veterans seeking jobs in our circulation area. All such ads are to be placed through the ISES office at 2050 Iowa St.

Returning servicemen and women not only served their country honorably but also have something extra for the consideration of prospective employers; they have valuable experience in many fields, including technical, clerical, professional and supervisory skills. They also have available the GI Bill and Manpower Development programs to aid them in acquiring additional expertise to help them help their civilian employer in operating productively and profitably.

We urge everyone who can to hire a veteran. The special "Work Wanted—Veteran" column will appear in the classified advertising section of the Press-Record.

New Arab Federation Much Like the Old One; Soviet Aid, Hatred of Israel Are Its Links

The Federation of Arab Republics created by Egypt, Syria and Libya is a new military alliance aimed at tightening the noose around Israel, as shown by the speeches and commentaries used to persuade voters in the three countries.

It also strengthens the three current rulers against not only external enemies but internal revolts; any of the three can intervene to reverse a revolutionary coup, whether or not the deposed leader has been able to issue a plea for help.

It is not a meaningful political federation as such. President Anwar Sadat based part of his appeal to Egyptians on the fact that his country would resume calling itself Egypt. They had never grown accustomed to being part of Gamel Nasser's United Arab Republic and are no more enthusiastic today about submerging their national identity with that of other Arab states. Hostility toward Israel is the glue which binds together the new federation.

The "Damascus Manifesto" and later rhetoric proclaiming FAR goals spell out the intention of waving a bigger stick over the Israelis.

confronting them with a stronger and more coordinated Arab threat than that faced in 1967 and making the subject of four years of broken and reinstated truce. Egypt has always blamed its defeat in the six-day war on the lack of coordinated support from other Arab nations.

In spite of King Hussein's determination to keep Jordan from being drawn into the web of militancy, the federation increases the pressure on Israel's eastern flank and creates in Libya a new arena for air and missile power to back Egypt's. The ambition to add Sudan to the FAR stems from its potential as a southern reserve for the new alliance.

The degree of threat which the federation poses to continuing Middle East peace will depend on whose thinking is dominant. Sadat has shown an inclination to use military threats as a way of seeking a negotiated settlement more favorable to Egyptian interests than is now in prospect. The more militant stance of leaders in Syria and Libya could push him into a less reasonable posture toward disputed territorial claims.

The FAR broadens the sphere for Soviet penetration, promising that its foothold in Egypt can be extended into Libya and even into the Sudan, where the Russians a short time ago suffered a setback with the failure of an attempted Communist coup.

Arab federations have a poor record for survival when they move from theory into reality. But the new alliance, content with hatred for Israel and backed with a continuing flow of sophisticated military hardware from the Soviet Union, appears to seriously endanger the fragile peace currently in existence.

Drug Abuse Prevention Will Be Emphasized

Drug abuse has become a problem of such vast and serious scope that the President has declared Oct. 3-9 as Drug Abuse Prevention Week to help spotlight the subject and encourage preventive measures.

Varied activities will be held to aid in the fight, and special emphasis will be placed on parent-adolescent dialogues on the drug problem. Known as "GAP Fests" (Groups of Adolescents and Parents), the discussions take into account not only the concern of adults but the realization that young men may be a part of the campaign against drug abuse if it is to succeed.

Schools, religious organizations, community agencies and mental health authorities will spread the efforts during Drug Abuse Prevention Week and in the remainder of the year.

Individuals or groups willing to participate may obtain free factual information on narcotics and drugs by writing, preferably by postcard, to: National Clearinghouse for Drug Abuse Information, Box 1701, Washington, D.C.

Traffic Needs Merit High Priority, Action

A report by the Tri-Cities Chamber of Commerce Highway-Traffic-Transportation committee this week eloquently cited the challenge confronting this area.

The vital widening of Nameoki Road between Pontoon Road and Interstate 270 twice has failed to attract bidders. Congestion worsens at Nameoki-Johnson Roads as the lack of an additional north-south artery continues. Access to Downtown Granite City remains difficult. Excessive stop signs frustrate potential new businesses and developments. Improvement of Rock Road lags despite its possibilities as an ideal connecting link. Pontoon Road beyond Nameoki Road remains too narrow.

These and other urgent traffic issues will require the fullest local-county-state-federal cooperation if they are to be solved soon. They deserve high priority.

Laughter is the shock absorber that eases the blows of life.

The FORUM

AMENDATORY VETO ON COMPENSATION COSTS

To the Editor:

It is my privilege to commend

Governor Richard B. Ogilvie increased expenditure authorizations coming to his desk. The governor is fulfilling his duty through careful review of all commitments to both taxpayers and

those individuals and agencies dependent on tax funds, while maintaining a posture of fiscal responsibility.

On House Bill 844, he gave an amendatory veto, utilizing a power the governor has under the new Illinois Constitution. The bill would have increased employers' Workman Compensation costs by an estimated average of 28%. The governor's proposed amendments, when adopted, will bring this bill and its increases in line with current economic thinking.

The leadership—and judicious use of the veto—in this action indicates an awareness that growing costs in Workmen's Compensation do result in overall cost increases which ultimately are borne by the consuming public. Gov. Ogilvie's decision assures adequate coverage without unnecessary increases in costs.

Nixon's China Trip in October?

By JAMES CARY

Copley News Service

WASHINGTON—A six-and-a-half-week period this fall is emerging as the most likely time during which President Nixon will make his historic trip to Communist China in an effort to ease world tensions.

The optimum period is between Oct. 1 and Nov. 15, particularly the month of Oct. 15 to Oct. 20.

This time frame is suggested partly by the fact that the President, in his July 15 announcement, said he would go to Peking before next May 1 to prevent the trip from becoming too closely associated with the political campaigns of 1972.

White House officials have also in effect ruled out the period to early fall. They have told newsmen that it will take until then to complete arrangements for the flight.

Similarly they have pointed out that the winter months in Peking are bitter and presumably unsuitable for the type of friendship-building diplomacy Mr. Nixon will be attempting to carry out.

This leaves early spring next year—March and April—and the middle and late fall this year.

Peking is situated at the degrees 44 minutes north.

Hungnam in North Korea; Hachinohe in northern Japan; the area immediately north of Sacramento, Calif.; Denver; Springfield, Ill.;

Columbus, Ohio, and Philadelphia are all about on the same latitude.

Not only are the winter months in such areas cold, but in Peking the early spring weather, although not impossible, is erratic and frequently sub-extremely cold and disagreeable.

This leaves the "golden" months—as they are known in Japan—as of October and November as the prime period for making the trip so far as climate is concerned.

They are sometimes cold and crisp but touched with the fires of autumn, and are frequently brilliantly warm and gentle.

There are believed to be other factors also, however, that would point toward the six weeks and three days between Oct. 1 and Nov. 15 as the most desirable period for the presidential journey.

Between now and the time Mr. Nixon steps off his plane in Peking, he will be walking through a mine field of potential difficulties.

One serious misstep and the reaction within the government is hoping the earliest possible date will be selected before an unforeseen international accident causes difficulties.

Food for Thought

By SISTER CORNELIA

Boys and girls, monks and nuns, did you know...? Of course people can do it, you can, too.

Nothing ventured, nothing gained.

Everyone makes mistakes.

We learn by our errors.

Trance makes perfect.

You make mistakes even harder than they really are.

A single stroke won't tell an oak.

Rome wasn't built in a day.

All beginnings are difficult.

Don't give up.

Don't let yourself be discouraged.

Well begun is half done.

You're bound to make a few slips.

Try it a few times anyway, and then you'll do better.

You can do it if you want to badly enough.

Difficulties were meant to be overcome.

The harder the task, the more

you may gain from it. In your dealings with people, try the above phrases as often as possible.

Liberties Official Backs Unlimited Appeals to Overthrow Government

By RAY McHUGH

Copley News Service

Washington—If a professor preaches the overthrow of the government in a classroom, and then people do try to overthrow the government, do you think... that his conduct is perfectly all right?

Unqualifiedly, yes; unqualifiedly, yes.

Once in a while an issue is clearly articulated in the course of a congressional hearing.

It happened when Melvin L. Wolf, legal director of the American Civil Liberties Union, and Sen. Edward Gurney, R-Fla., debated unlimited freedom of speech vs. qualified government restraint.

Here is part of their exchange in a hearing of the Internal Security Subcommittee of the Senate Judiciary Committee.

Gurney: "Suppose you had a professor in a law school who advocated... as a legitimate means of population control. Do you think, under the First Amendment, this would be permissible?"

Wolf: "Oh, yes; no question about it, senator."

"One can sit around and advocate murder or kidnapping, or advocate any criminal act, and his students to go out of the classroom and commit a murder in the hall, it might very well be that he would be liable for a criminal prosecution."

Gurney: "That is not what I am talking about..."

Gurney: "Using the same analogy, I want to ask you if somebody preaches the overthrow of the government in a classroom, and then people do try to overthrow the government, do you think that is, and does also the American Civil Liberties Union think that the law could not reach the professor? That his conduct is perfectly all right?"

Wolf: "Unqualifiedly, yes; unqualifiedly, yes."

Area Parents to Hear Report on New Schools

The Area PTA Council executive board held its first meeting of the new school year at Mitchell School with the president, Mrs. Judith Hunter, presiding. Mrs. Shirley Glenn of the Gardenaire Garden Club addressed the group on teacher curriculum guides dealing with conservation.

Books on the subject are available from the garden club at cost.

Plans were completed for the first general 1971-72 Area PTA meeting Thursday, Sept. 23, when a pot luck supper will be held at 6:30 p.m. at Niedringhaus School.

The program will be on new schools now under construction here, and speakers will be Superintendent of Schools B. J. Davis, and Dale Rea, assistant to the superintendent. The meeting is open to all members of local PTA units, as are all Area Council meetings and events.

All units were urged to revise their bylaws, as this must be done every two years. Announcements were made of the Sept. 24, 25 and 26 educational conference taking place in Chicago under the sponsorship of Dr. Michael Bakalis, superintendent of public instruction for the state. Bob Kirgan will represent the Granite City Area at the conference.

The fall conference of PTA District 29 will be held Tuesday, Oct. 19, in Jerseyville at the Illinois Junior High School. The 5 p.m. meeting originally had been set for Oct. 13.

A "juvenile protection seminar on drug abuse" will take place at Augustine's in Belleville Oct. 27, beginning at 9 a.m. Cost will be \$2.50, which includes lunch and morning refreshments.

Special thanks were given to those who worked on the PTA float entered in the Jubilee parade. Mrs. Faye Kirgan was in charge. The float was decorated with flowers and bryson were among the workers. Theme was "Your Link Between School and Home". The wagon used was furnished by Harry DeHaghe. Mrs. Pat Polley announced.

October Bride-Elect Honored

Miss Mary Ann Bathon, who will be an early fall bride, was guest of honor this week at the Illinois Junior High School. The wedding colors, peach and white, were used in the appointments and large brassy centerpieces with flowers were the centerpieces. Smaller glasses served as favors.

Miss Bathon is to be married Oct. 16 to Manuel Fernandez. The time was spent at games and a number of prizes were awarded.

Bowler-Sandor Nuptials At St. Mary's, Madison

In a noon ceremony Sept. 11 at St. Mary's Roman Catholic Church in Madison Miss Christina Lee Sandor became the bride of Paul Ray Bowler.

The bride is a daughter of Mr. and Mrs. William M. Sandor, 1011 Washington Ave., Madison. Mr. Bowler's parents are Mr. and Mrs. Ray Bowler, Rural Route One, Granite City. White and orange 'mums and pom poms adorned the church altar for the 12 o'clock service at which the Rev. Conrad Molella, O.F.M., officiated.

Music for the occasion was furnished by Mrs. June Branding, soloist, accompanied at the organ by Mrs. Helen McGarran. White satin bows marked the family pews.

An exquisite gown of imported candlelight silk organza and Chantilly lace was worn by the bride. It was designed with a high neckline and an empress bodice. The long sleeves were cuffed with lace and the A-line skirt was generously adorned with Chantilly lace motifs. A removable court train complemented the gown. It was encircled with more of the lace.

A veil of silk tulle was secured with a Juliet bonnet of lace and seed pearls and the bride held a traditional cluster of white roses and rose foliage. The attendants, Kathy McClanahan, maid of honor, and bridesmaids, Dorothy Frintzko, George Molnar, Mrs. Jeffrey Chaboude and Mrs. Kenneth Barckett, wore gowns of orange chiffon.

The postices, waistlines and cuffs of the long full sleeves were trimmed with ivory Venice lace interwoven with narrow orange satin ribbons. The softly gathered skirts were floor-length and they carried colonial bouquets of Tropicana roses and white carnations with ribbon streamers.

Angela Molnar and Wally Chaboude served as flower girl and ring bearer. The former carried a basket of Tropicana roses and white carnations.

Roger Bowler was best man, serving with Richard Skirball.

200 FANS stood or sat on the floor to listen to the eight groups competing in the Jaycees War of the Bands. The competition included four folk

groups and four rock bands competing for \$150 in prizes.

'Winthrop,' Markarian Tops in Band Contest

About 200 young people saw "Winthrop," a rock group and John Robert Markarian, a folk singer, capture first place awards in the Granite City Jaycees "War of the Bands" contest this week in Wilson Park pavilion.

Sponsored for the past several years by the young men's service club, the music contest differed from those in previous years by separating folk and rock groups into two distinct areas of competition with each division competing independently for prize money.

A panel of five judges selected "Winthrop" as top winner in the rock-pop division to defeat the J. Christopher Blues Band, the defending champions, which won the second place award.

Folk artist John Robert Markarian, 2105 Clark Ave., a solo performer, was judged first over "Cormier," a group of folk musicians, including Jon Carnier, bongos; Nancy Meadows, percussion; and Bob Canada and Dan Sutich, guitar and vocal.

Members of the "Winthrop" group are Gerald Gene Newman, guitar; John Wasson, bass guitar; Bob Parks, lead vocal

and drums; and William B. Drew, percussion and keyboard. J. Christopher Blues members are Mark Wittenbrink, guitar, organ and vocal; Rich Chosich, bass guitar and vocal; Patrick Spies, percussion; and Christopher Vaughn, guitar and vocal.

The top rock groups received \$100 and \$50 for first and second places, respectively, with the folk division winners awarded \$50 and \$25.

Other competing bands in the pop division were "Soapstone McCallister" and "Widener."

Folk category entrants included "Virtu" and Brewer, Spence and Stevens.

Serving as judges were Gordon Routh, Mark and Ken Hoedbecke, Mrs. Jennie Patterson and Robert Burroughs. John Fornasewski was the contest director, assisted by Earl Warnhoff.

ON STAGE, the folk group of Brewer, Spence & Stevens entertained during the War of Bands at the Wilson Park ice rink. Members of the group are, from left, Jim Townsley, Greg Spence, Dennis Brewer and Doug Stevens. Jim Warren, playing drums, is in background.

AWARD WINNER, John Robert Markarian, second from right, won top honors in the War of the Bands folk competition. John Fornasewski, right, contest director, prepares to present Markarian with a \$50 award as Earl Warnhoff, left, chairman with Fornasewski, and Darrell Ridgeway, second from left, emcee for the event, look on.

Church Women United Elects, Installs Officers at Annual Business Assembly

An election and installation of new officers highlighted the annual business assembly of the Quad-City Council of Church Women United Tuesday night at Nameoki Methodist Church. Mrs. E. A. Roberts conducted the "Celebration of Installation," an innovation this year, with the following officers selected:

President, Mrs. Fred Rupp; vice-president, Mrs. Leonard Roberts; chairman for World Community Day, Mrs. Alge Crawford Jr.; Social Concerns representative, Mrs. Donald Bogue; nominating committee, Mrs. Donald Riverburg, Mrs. Ray Patton and Mrs. John Pithers; CROP-Church World Service Co-directors, Mrs. George Vogeler, and Tiny Tim Easter Seal nursery, Mrs. Warren Leeper.

Mrs. John Schrader, retiring president, conducted the business meeting, with the Reverend Jim Anthis, pastor of Central Christian Church, offering a symbolic Bible presentation.

Highlights from the minutes of the past year were reviewed by the secretary, Mrs. William

Beatty, with the treasurer's report presented by Mrs. Victor Anderson. A revised edition of the by-laws, prepared by Mrs. Riverburg and Mrs. George Holtzschner, was accepted by the group.

Project reports of the areas of involvement of Church Women United were given by the various chairmen, including: Friends in Learning, Mrs. Vivian Cherry; Mental Health Adult Activity Center, Mrs. Henry Lamb; Tiny Tim Easter Seal Nursery, Mrs. Conrad Luaders; transportation, Mrs. Robert Shands; Nearly New Clothing Center, Mrs. David Daniels; layettes for new mothers, Mrs. Schrader, and Fellowship of the Least Coin, Mrs. Adolph Rickert.

Mrs. Schrader announced the following dates: Church Women United Southwestern Area fall workshop, Oct. 12, at the United Methodist Church of Carlyle, Ill.; World Community Day, Nov. 5 at Mitchell Presbyterian Church, and the Illinois State Annual Assembly, May 16 through 18 at Champaign-Urbana.

Plans for the Church Women United participation in the United Fund "Fun Fair" were discussed by the chairman, Mrs. Rupp. Featured this year

will be a "Country Kitchen," providing home-baked and home-canned items, with Mrs. Gisela Gott as chairman, dried food arrangements, Mrs. Leonard Roberts, chairman, and colorful posters as selected by Miss Carol Starling and Mrs. Henry Lamb.

An appeal was made for workers to staff the booth during the "Fun Fair" on Oct. 2 and 3. Volunteers were asked to call Mrs. Beatty, 877-1866, if they will be able to help. In the past two years, the group has realized a donation of over \$1000 to the United Fund through its efforts at the Fair, and they are hopeful of equaling or even surpassing this goal this year.

After the meeting, tea, cookies, coffee, and tea were served by the ladies of the host church from a table decorated in a fall theme.

CHRISTIAN SCIENCE LESSON ON "MATTER" What is the connection between healing and salvation? This is a question to be explored in the lesson-sermon on "Matter" at Christian Science church services Sunday.

State May

Dr. Weiman said the Lake County review also indicated that 6,000 additional square feet of assignable space can apparently be added at no additional cost, by enclosing a courtyard.

Building plans at Prairie State College in Chicago Heights will come before the task force for review today.

Dr. Weiman's letter expressed hope that most, if not all, of the 21 junior college construction projects can be reviewed by mid-November, to permit prompt release of funds.

He added that it was the feeling of the board that not all the projects would have to be completely reviewed before some could be released.

On the question of 100% construction funding by the state, the letter notes that a number of questions are raised by the proposal, as well as questions about availability of state funds for the purpose, and "philosophical questions concerning the desirability of 100% state funding for construction."

Some college officials have urged that the state continue funding at the present 75% rate, but increase state support for operating purposes to 50% as recommended by the Illinois Board of Higher Education's master plan.

The ICB will take up the staff proposals at a meeting Friday at the Sherman House in Chicago.

The letter notes that no alternative exists that meets the needs of all districts, and then outlines four main areas for investigation by the community college trustees and president of the Board of Higher Education, Bureau of the Budget and the governor's office.

Basically, the proposed alternatives suggest:

—The state would provide local districts with funds to pay principal and interest of bonds as they fall due, enabling local tax levies now used for that purpose to be used for operating costs after appropriate legislative action.

—The state would "purchase" local bonds, either through the Illinois Building Authority, a state general obligation bond issue or other state bonding procedure, and then ask local district voters to approve transfer of state-owned longer-term bonds for bond and interest payments —to the educational and building funds.

It was noted that in view of general voter reluctance to approve tax referendums, a bond tax increase were involved.

—The state could "purchase" local bonds as previously suggested and then authorize through state statute, without voter approval, increases in educational or building funds, or both, with the increases not to exceed the decrease caused by state funding.

Districts would be allowed provide to local boards equivalent to the tax levy for outstanding bonds, but the money would be used by the local district for educational or building funds, or both.

The board also recommended eight "concepts" to be made part of the implementation.

These provide among other things that after the state completes payment, full ownership of facilities be turned over to the local board.

Under the plan, no district which has already paid its own obligations; that the state assume only outstanding bonds; that the state assume outstanding indebtedness from project related construction, such as parking areas, which could be partly or fully financed by user fees or charges.

The plan would also be given the option to continue to levy taxes or issue bonds, or both, to provide site acquisitions or developments which could not be financed by the state.

Murder Charge Filed In Fatal Stabbing

A St. Louis man surrendered at 6:30 p.m. Tuesday in connection with the fatal stabbing of a woman in St. Louis.

Charles Jerome Myers, 22, who is being held without bond at the Madison County Jail.

Myers' appearance followed an investigation by the Madison County Sheriff's Department, which had received a description of an auto leaving the area of the stabbing and a faulty license number.

Sheriff's Capt. Demos Nicholas said the homicide section of the St. Louis Police Department is assisting by using combinations of the first part of the license number.

It also was learned Nicholas said, that Myers had been employed at a stabbing at his place of employment in St. Louis.

MORE ABOUT

Downtown

Establishments and those on bank shares will be reinstated because of the high court ruling. The Supreme Court held in constitutional a 1st November's referendum approval of a constitutional amendment to remove personal property tax except that on corporations. The ruling came after this year's personal property valuations had been extended, thus making it necessary for township assessors to reinstate that part of personal property assessments previously removed by the constitutional amendment.

Barton said the reassessment of personal property will be made by mail. Assessment schedules will be sent to those persons who had been removed from the books earlier with a request that the schedules be returned as soon as possible.

Barton's office said assessment schedules also will be accepted by telephone and inquiries from persons who are uncertain of their status also will be answered by phone.

Individuals wishing to apply for the assessor's office in person may fill out schedules there. Barton's office also has had the additional task this year of reinstating Household Exemptions of \$1,500 each on real estate property owned by persons 65 years of age or older. The Household Exemptions first were authorized in 1969 and applied to the 1970 assessment. They also were held unconstitutional by the Supreme Court, however, and new legislation passed in the 1970 General Assembly to apply to the 1971 valuations.

PLAN FOR CHARITY DAYS

Junior Girl Scout Troop 492 planned a busy calendar for the next two months as it met with their leader, Mrs. Skippy Kidman, at her home during the weekend. The scouts utilized a formal opening to commence their meeting and Mrs. Kidman explained a new insurance policy of the River Bluffs Council for all registered girls and adults.

Mrs. Kidman also talked on calendar sales and stressed proper attendance this year; last year, eight members achieved this honor and will go with Mrs. Kidman to the Eugene Field Museum in St. Louis next month.

Capt. Dowdy One Of Last in North Military Region

HO, XXIV CORPS (10) DANANG, VIETNAM—Overlooking the A Shau Valley atop Hill 300, one of several hundred in the mountainous area of northern Military Region I, lies Fire Support Base Barbara, a small, compact compound.

Besides American advisors, a battery of XXIV Corps Artillerymen reside here, supporting allied forces operating in the treacherous A Shau Valley and along the Laotian border.

Cap. John William Dowdy, son of Mrs. Gerry Dowdy, Granite City, is assigned to the 1st Battalion, 38th Artillery at Fire Support Base Barbara. He entered the Army in June 1963 and completed basic training at Ft. Leonard Wood, Mo. He arrived in Vietnam in February 1971. Capt. Dowdy attended Granite City High School and is the husband of Mrs. Linda Annnette Dowdy, Granite City.

Maintained by Copters
The men who maintain and fire the 160mm howitzers and 8-inch guns are supplied by Chinook helicopters that fly in ammunition, powder, food, mail and all other items essential to the artillerymen.

A road does lead to the compound but it is a hazardous trip. The Vietnamese combat engineers are not able to mine-sweep continuously.

The men on Barbara have not seen the extensive enemy action that their sister units have farther north, but they are susceptible to attack at any time, and take precautions accordingly.

Vietnamese guard the perimeter that rings the hillside, while the Americans post guards on top of their bunkers. Alertness is the key factor in thwarting a ground attack.

The Americans on Fire Support Base Barbara are among the last U. S. troops in northern Military Region I. They are anxious to go home but the men express a sense of pride in being the last remaining GIs in these northernmost reaches of Vietnam.

Damaged in Accident

Car driven by James L. Faris, Rural Route One, Box 1346, Granite City, and Rudolph LeGrand, 2015 Washington Ave., collided on West Pontoon Road at Melrose Avenue at 7:55 p.m. Monday. Police said Faris was passing the LeGrand auto on the right when they collided. The left side of Faris' auto and the right rear of LeGrand's car were damaged.

Regional Report -- Highway, Transit, Drainage are Topics

(Illinois Metro East Industrial Development Corporation)

Transportation has continued to headline the news.

The Illinois Division of Highways in Springfield is studying bids for eight road projects totaling \$2.7 million. Bids were submitted for all proposed projects and were reported below or near state estimates.

Projects in St. Clair County include: Grading for future District Eight buildings near the intersection of Ill. 157 and Ill. 161 at French Village; a bridge and approaches on the Scott Field-Troy Road over Rock Springs Branch, 1 1/2 miles east of O'Fallon; and, 6.75 miles of widening and resurfacing on Ill. 163, from Ill. 157 south to Mill-stadt.

In Madison County, projects include: 0.68 mile of junk yard screening along the south side of Interstate 270 between the east end of the Mississippi River Bridge and west of the Chain of Rocks Canal; resurfacing on Ill. 267 between Gouffrey and the Madison-Jersey County Line; and, 1.8 miles of resurfacing on Pontoon Road from Maryville Road in Granite City to Ill. 111 in Pontoon Beach.

In other highway construction news a public hearing to consider the corridor of Ill. Route 148 in Madison County is scheduled for Sept. 22 at Wood River.

The project extends from Ill. 159 at the west edge of Edwardsville to Ill. 3 in Wood River. Consideration of Smartt Field in northern St. Charles County as a site for a second major airport was opposed on ecological grounds at a meeting of the Regional

Forum of the East-West Gateway Coordinating Council. In opposing the site, the committee cited air and noise pollution, and damage to recreation areas and wildlife concentrations.

A rapid transit line along the bluffs connecting Alton with the proposed airport at Waterloo has been suggested by George Arnold, research consultant with Southern Illinois University's Southwestern campus.

The recommendation was made as an addition to the 88-mile rapid transit system proposed by an engineering firm for the metropolitan area. A rapid transit line from St. Louis to Granite City, proposed in the original plan, could be extended to Alton and one proposed from St. Louis to Edwardsville could be extended to Belleville.

The north-south bluff line, the two extensions and a line connecting the airport and St. Louis would form a complete rapid transit sector in Illinois, as is planned in Missouri.

William Ebersold, president of the East Side Levee and Sanitary District board of trustees, said the district cannot cope with flood-control problems of the scope of the hillside drainage.

The president made his statements in commenting on a warning from the U. S. Corps of Engineers that a "critical situation" exists because of the levee district's inability to repair a large pumping station which was designed to protect thousands of homes and a multimillion dollar industrial complex.

Ebersold said he is prepared to recommend that

drainage control be taken over by the state or federal government.

Area sewer projects could be delayed by a new federal requirement for water quality management studies. The U. S. Environmental Protection Agency has announced that no sewer projects will be approved for federal funding unless water quality management studies have been prepared for the basins or metropolitan areas in which the projects are located.

An all-black owned and operated business, the Fast-Bite Bait Manufacturing Co., began operations in East St. Louis. The firm is producing dough-baits, a type of bait primarily used for catching fish that feed on the bottom of rivers and streams. A group of 19 men,

all of East St. Louis, organized as the East St. Louis Citizens Development Syndicate to launch the new firm as its first venture.

In other business news, the Belleville Casket Co., Inc. has been acquired by the National Casket Co. of Boston. The Belleville firm becomes a division of National Casket, operating under present management. National Casket is a division of Walco National Corp., a diversified manufacturing and merchandising firm with annual sales of about \$75 million.

In general area news, plans for an \$8 million postal building in East St. Louis have been cancelled by the U. S. Postal Service; the Village of Cahokia will have its first lake by the end of October; and the new 100-bed St. Clement's Hospital at Red Bud will be dedicated Sept. 19.

Bundy Given Award at Agricultural Meet

Madison County Extension Adviser Warren W. Bundy received the Distinguished Service Award at the convention of the National Association of County Agricultural Agents held at Columbus, Ohio through Saturday.

Bundy is a past board member of the Illinois Association of County Agricultural Agents and has served on the Association's extension programs, retirement, membership and nominating committees.

He has also served on the State Pesticide-Use Advisory Committee. Bundy, now in his 26th year in Extension, received his B.S. in general agriculture and M.S. in Extension education from the University of Illinois.

Reserved Pasture Use To Open on Wednesday

Lee Rogers, executive director of the Madison County Agricultural Stabilization and Conservation, says farmers may open the gates for pasturing of set-aside acres as of now. Farmers who diverted acreage under the 1971 Feed Grain or Wheat Programs may use this acreage for pasture starting yesterday. This day marks the end of the 5-month period during which the no-grazing was in effect.

Rogers stressed, however, that this permission regarding use of set-aside acres extends only to pasturing. Hay or seed on this set-aside acreage still cannot be harvested.

HOSPITAL PATIENT since June 17 is Billy Joe Conner, 5, shown at Cardinal Glennon Hospital, St. Louis, where he is being treated for third degree burns to 80% of his body. He is unable to bend his arms or use his hands, but walked a few steps this week with the aid of his nurses. The youngster underwent his third skin graft operation on Sept. 8 for areas on his back and back of his legs. He is the son of Mrs. Linda McClure, 2312 Terminal Ave., and Larry Conner of Granite City.

GC Divers Net Trophies In Midwest Program

Six members of the Granite City Bubblemasters Club captured trophies in a weekend diving contest at Bull Shoals Lake, near Pontiac, Mo., and a local man, John Nichols, won "Diver of the Dive" honors, the meet's top award.

The end-of-season meet is sponsored annually by the Midwest Scuba Diving Council for divers from Illinois, Kansas, Arkansas and Missouri. Hundreds of divers representing 22 clubs in the four-state region participated in the competition. To accumulate the largest number of points and attain the "Diver of the Dive" award, Nichols earned first-place trophies for the "most fish" caught in spearfishing Class "A" skin diving and spearfishing Class "A" scuba diving. He also caught the largest turtle to win another first-place trophy.

Other top local divers were Rich Wilson who received a first-place trophy for the "most fish" spearfishing Class "B" skin diving; Howard Finley, third-place, largest fish caught, in skin diving competition; Jack Atkinson, third-place, "most fish" spearfishing Class "A" scuba diving; Ron Ruppel, second-place, largest fish, spearfishing-scuba diving; and Barbara Duffin, first-place woman's "triathlon" event which involves solving underwater puzzles.

About 40 divers from the local Bubblemasters Club took part in the weekend dive.

In annual inter-club competition between Bubblemaster and Alton Masketeer members, the Granite City divers scored top honors on Ruppel's largest fish entry. The victory requires the losing team to host a fish fry for the winners this fall.

Parking Meter Fines Dip During August
Parking meter fines fell sharply during August to the second lowest total collected in any one month this year, while fee collections rose slightly over July figures.

Only \$600 in fines was collected last month, compared to \$1,162 the previous month. Only \$975 in fines was collected during February, a record low. Fees rose from \$3,500 in July to \$3,262 last month.

A total of \$3,882 in both fees and fines was collected during August, slightly below the \$4,212 collected the previous month.

Total collections for the year are \$31,241 as compared to \$31,498 in the same period of 1970. Meters operated 26 days in August and the average daily collection was \$152, down from the July average of \$162 per day.

Attempted Burglary

A lock was broken off a shed at the rear of Hoppe's Tavern, 2807 Edwardsville Road, but there was no entry. It was reported to police this week. Three boys were seen running from the shed.

Resignation by Pontoon Clerk

Mrs. Kathleen Bledsoe, 3334 John Glenn Drive, whose appointment as village clerk of Pontoon Beach occurred after a controversial election, has submitted her resignation to the Pontoon Beach Board of Trustees.

Mrs. Bledsoe said she has decided to leave the clerkly office to move from the village area. Her resignation, effective Sept. 9, the same day she presented it to the board, was accepted. She was commended by Trustee Dr. Dean E. Rochester, who said, "It has been a real pleasure to have you working with us on the board."

Village President Thomas A. Stalock said a new clerk will be appointed at the trustees' next meeting, Thursday, Sept. 22.

At last week's session, the trustees met in a room at the rear of the Long Lake fire department. Previously, the board usually convened in the Long Lake Firemen's Hall, a building adjacent to the fire station. Air-conditioning equipment in the new meeting place worked until half-way through the live session when a blown fuse plugged the room into darkness and repairs had to be effected by Trustee Otto Kreber.

Mrs. Bledsoe Appointed
Mrs. Bledsoe was appointed village clerk after Carl E. Hackney, 33, of 4174 Breckenridge Lane, was declared ineligible because of a one-year residency requirement.

Hackney, later appointed village treasurer, polled 294 votes in the April 20 Pontoon Beach election, compared to 213 votes cast for Mrs. Bledsoe who was a write-in candidate for clerk. Mrs. Bledsoe ran with three other write-in candidates against the Civic Action Party ticket headed by Stalock. None were successful in their bid to oust the incumbent officials.

Hackney, who was on the Civic Action Party slate, was disqualified under the Illinois statutes which require a candidate for a village office must have been a resident of the village for one year.

Although he had resided at his current address nearly three years, the section was annexed by the village June 15, 1970, making Hackney a resident of Pontoon Beach only ten months and five days at election time.

It was on the advice of Village Attorney William Schooley that Mrs. Bledsoe was appointed to the office, as opposed to being declared the winner, after Hackney's disqualification.

In other action, the trustees awarded a contract for purchase of gasoline for village vehicles to the Caton Enterprises (Pontoon Car-O-Matic) on a low bid of 21.4 cents per gallon (regular) and 24.4 cents per gallon (premium).

Only one other bid was submitted, from the Pontoon Fire Station, which offered two cents per gallon off regular price—a five-cent per quart discount on oil; and 10% discount on tires, batteries, and all parts and labor in repairing vehicles. The bid called for only gasoline purchases.

Wheat Allotments are Unchanged for 1972

Wheat allotments have not been reduced for 1972, Lee Rogers, director of the Madison County ASCS Office, reports. Wheat allotment notices have been mailed, reflecting the Domestic Allotment instead of the regular farm allotment.

This is not a change from last year, Rogers explained. The domestic allotment is being used again as it was last year, in place of the regular farm allotment. This domestic allotment amounts to approximately 45% of the old regular allotment, and is acreage used to determine the amount of set aside acres to be diverted, as well as for figuring Program Payment for the farm.

The domestic allotment does not restrict a producer to a set number of acres of wheat, nor does it indicate to him what crop or crops he should plant. With the new Program in effect, a farmer can plant the wheat farm to wheat or plant no wheat at all, and still be eligible to participate in the program. If he does not set aside acres to be diverted, he can substitute either feed grains or soybeans for wheat in order to protect his allotment for future years.

This means farmers will have considerably more freedom in planning their farm operations than they've had in the past. They can plant all the wheat they want this fall without fear of penalty and can decide next spring if they wish to go with the programs.

Study May Prompt Illinois To Ban Studded Auto Tires

By JOAN MURARO
Copley News Service

Springfield—Studded tires, hailed as safety heroes when introduced a few years ago, are being recast as the villains of the piece, at least where highway damage is concerned.

When the Illinois Highway Division finishes evaluating results of a study it co-sponsored with several other states, it may join a growing roster of states which are banning use of the tires.

Minnesota, where the most intensive study of the tires to date was made, and the province of Ontario, Canada, have already banned them.

Next April 1, studded tires will be outlawed in Utah. And Wisconsin's legislature is now considering a ban on them. Michigan is also reported considering barring use of the tires.

No estimate is available from the highway division on when its findings and recommendations will be made.

Illinois, with several other states, shared the cost of the study made in Minnesota, where it was estimated that each automobile use of studded tires would cost that state \$36 million by 1980.

On a basis of vehicle traffic miles and corresponding pavement repair costs, the cost to Illinois would be much higher than the Minnesota figure.

Engineers base repair costs as starting at a time when pavement wear becomes 1/4 of an inch deep on pavements, and half an inch on bridge decks. At that point, resurfacing with high grade bituminous material would be required.

Studded tires are snow tires which contain tungsten carbide studs (70 to 100 per tire) which protrude from the tire surface and provide greater traction.

This in turn means improved control on slick roads, a shorter braking distance on ice and greater handling stability when the tires are used on all four wheels, as is the practice in Germany, Finland and the Scandinavian countries where the tires were first used.

After the study in Minnesota, the highway department there reported that after four million passes by unstudded tires over an asphalt test strip, there was almost no wear. But while after only three million passes with studded tires, the asphalt pavement was worn 1.59 inches deep.

On concrete test strips, four million passes with studded

tires chewed away 1.8 inches of the surface, while the same number of passes without studs produced no appreciable wear (only .02 inches).

Since the test was run on a track 17.7 inches wide, compared to average highway wheel paths which are about three feet wide, or 47 times the test track, actual highway wear would be about one fifth that shown in the tests.

Illinois, like most states permitting use of studded tires, permits them only during the winter months. It is not expected that there will be recommendations on possible banning of studded tires brought before the upcoming fall session of the General Assembly which starts Oct. 5, since that session is expected to be limited chiefly to fiscal matters.

East Bank Players to Present The 'Fantasticks' Oct. 1-2

The East Bank Players are day and Saturday, Oct. 1-2, in final rehearsals for their fall production — "The Fantasticks" — to be presented Friday and Saturday, Oct. 1-2. Tickets will be available to the public this weekend. Local audiences may see the

popular musical, which has run continuously Off-Broadway for the past 11 years, in the Grand Ballroom of the Granite City Elks Club, 1320 Niedringhaus Ave.

The Quad-City area's theatrical company also plans a special benefit performance Thursday, Sept. 30, at the Elks Club to aid the Niedringhaus United Methodist Church Building Fund, officials announced today.

Mabrey to Play Lead
Appearing in "The Fantasticks" leading role of "Matt" is Paul E. Mabrey. He recently was named director of vocal music at Granite City High School and serves as choir director at a local church.

A native of St. Louis, who now lives in Granite City, Mabrey previously taught at Wilson and Lake elementary schools. He is a graduate of Southern Illinois University-Southwestern campus and currently is working toward a master's degree in Music at SIU-SW.

Mabrey previously was cast in musical roles in several high school productions, including "The King and I," "Carousel" and "Music Man."

To Make Debut
Chosen to appear opposite Mabrey in "The Fantasticks" is Miss Debbie Hightower, a Granite City girl making her local debut in musical theatre. A 1970 graduate of Granite City High School, Miss Hightower is a student at Southern Illinois University where she is on the Dean's List. Last November she won the annual National Association of Teachers and Singers contest at Bloomington, Ind.

While in high school, Miss Hightower was active in the Advanced Mixed Chorus and the School Studies Club. She also was a member of the National Honor Society and served as a varsity cheerleader.

A preview of "The Fantasticks" will be presented at 8 p.m. today at the Elks Lodge during a general membership meeting of East Bank Players. Prospective members and others interested in theatrical work are invited to attend.

The Players group will discuss plans for its third season of productions and tickets for the October presentation will be distributed for public sale.

Study Probes Veteran Post-War Adjustment

Approximately 2,500 area veterans are being receiving a questionnaire soon probing problems encountered by ex-GIs seeking to readjust to civilian life. The questionnaire is an outgrowth of the Veterans World Project now under way at Southern Illinois University-Southwestern. Through the cooperation of the Military Records Center in St. Louis a mail questionnaire is being sent to recently returned veterans in the Metro East and St. Louis area. Findings from the questionnaires will be included in reports expected to be made when the project is completed.

For six weeks a group of 40 veterans have been meeting daily to study problems of higher education, vocational and technical training, the job market and social and psychological issues affecting ex-GIs. The veterans also are studying relationships with the Veterans Administration and other federal and state agencies dealing with ex-GIs.

The study has been financed by a grant from the U. S. Office of Education. A letter accompanying the questionnaire points out the study has been organized and carried on by veterans for veterans, because "Vietnam-era veterans may be in a better position than anyone else to define their needs, problems and desires."

Wheel-Tire Theft

Respect for the Law Requires Holding All Responsible for Acts Regardless of Motive

By GOVERNOR
RICHARD B. OGILVIE

Our Illinois Constitution assigns the governor the responsibility for "faithfully executing" the laws of our state.

One such instance occurred recently. Several union officials asked me for clemency after they had been sentenced to jail for carrying out strikes against public institutions in violation of court orders.

After long and thoughtful consideration, I decided to uphold the court's authority, and the men went to jail. Since then, there have been many charges and counter-charges hurled back and forth, and a good deal of misunderstanding has developed over the reasons for my action.

Indeed, because several of the officials were teachers who struck against the schools, I have even been accused of be-

ing anti-education and anti-labor.

I think it is time to put the matter in perspective.

My action was in no way motivated by hostility to education in general or teachers in particular. On the contrary, the record of this administration in aiding our schools is a record of which I am proud.

In the past three years, state formula aid to local school districts has increased 106% from \$370 million to \$763 million in the current school year. Altogether, we have provided more financial support for public schools in three years than the state had provided in the preceding eight years.

And a large measure of that increase has gone to our teachers, in the form of higher salaries.

Nor was there any "anti-labor" bias behind this action. In fact, within a few days of this action, I also signed into law a state minimum wage act, one of the most important objectives of organized labor in Illinois for many years.

In denying clemency, I was not judging the merits of the strikes involved, nor the issues which caused them. That determination can only be made by the parties to the dispute and the people affected locally.

My reasoning in this case was very simple and direct. In a political system which is based on laws rather than the whims of an all-powerful dictator, it is essential that we maintain a healthy respect for those laws, and for the courts which

are mandated to interpret and judge them.

What these union officials were asking me to do was, in effect, to nullify their convictions for contempt of court.

Yet, if I had agreed to do that, I would have joined forces with those disruptive elements in our society which seek to strip the courts of their dignity and their credibility.

It certainly would have diminished the courts' ability to impartially administer justice in an atmosphere of mutual respect for the law.

If justice is to prevail, we simply cannot allow anyone the right to defy a valid court order without accepting the responsibility for that defiance.

The issue is that simple. Now, at the same time, I understand the motivation of some individuals in purposely breaking the law, in order to call attention to a situation or a regulation which they consider unjust.

Many great men in history—men like Thoreau, Gandhi and the Rev. Martin Luther King—have employed the technique of civil disobedience.

But there was an important difference between their actions, and those of the union officials who asked me for clemency.

Gandhi often forced a confrontation of a moral issue by disobeying particular laws which he believed unjust or immoral—but he was always willing to pay the penalty.

He—and others like him—went all the way. After breaking the law, they did not ask to be relieved of re-

responsibility for their actions.

They knew that a free and just society depends on a complete and impartial enforcement of its laws—until they are changed through the proper legal or legislative processes.

In the cases of the union officials, they carried out strikes in defiance of legitimate court injunctions. They broke the law, knowingly and deliberately.

The judges—in an understandable effort to establish the legitimacy of court orders—found the men in contempt, and sentenced them to jail.

In view of my constitutional authority to "faithful-

ly execute" the laws of Illinois, I didn't see how I—

in good conscience—could reverse that decision, and diminish respect for the courts.

I am committed to an equal, impartial application of the laws for all the citizens of this state.

That can sometimes be a difficult assignment, but I believe we must carry it out if we are to preserve our precious American freedoms.

Building, Mobile Home Zoning Plea Denied

A request by Heritage Realty Co. to construct a warehouse at 2233 Iowa St. was denied by the Granite City Plan Commission in a decision after eight objectors presented a petition to the commission opposing the facility.

The petition said the warehouse would lower property values in the residential neighborhood and asked that the request be denied.

Another controversial proposal to construct a mobile home park in the West Granite area was denied by the commission after a month of study. At the Aug. 19 meeting, 20 objectors told the board that the proposed park would overcrowd the schools in the area and that mobile home owners would not pay their share of school taxes. They also complained that the park would lower property values in that neighborhood.

Many New Car License Plate Designations Are Available

By JOAN MURARO Copy News Service

Springfield—Whole new horizons have been opened for Illinois motorists with a burning desire for something distinctive in auto license plates.

Conversely, motorists who unwillingly got distinctive plates in the past won't get them any more unless they specifically request them.

Hollen Hyndman, administrative aide to Secretary of State John W. Lewis, said some sequences have been dropped because of numerous complaints from drivers who objected driving around for a year with socially significant initials on their licenses.

Now, plates with certain combinations will be issued only to those persons requesting them—people who might have had such plates last year and prefer to keep the same combinations, or persons with those initials who want them on their licenses.

Those who want to be first on their block with something new can now request such combinations as "AA 0," "AB 0" and so on, Hyndman said, in an expanding program in the secretary's office to make uncommon new combinations possible to meet increasing demands for auto licenses.

The entire new program, begun on a restricted basis with 1971 plates, will not be implemented with the 1972 series, but plates for the coming year will be issued in sequences of "AA 000," then "AA 000" and even "AA 000," Hyndman said.

Eventually, the zeros will be followed by other digits up to a total of four digits including the zero, following two letters.

In the past, the zero was only used after other numbers, rather than first, on regular vehicle plates, though zeros were used on some emergency and lively vehicles, such as ambulances and taxis. The zero also was widely used on sample plates, like J1 0000, not legal for actual use.

Until now, the lowest numbered plate in the state was 1, issued to Mrs. Richard Ogilvie, Gov. Ogilvie holds the No. 1 plates in the official state vehicle series.

Licenses running from 1 through 100 are usually prized prestige plates, and Tew people

holding them relinquish them. Anyone wanting the new "AA 0" sequence plates can request them like any other special assignment, by filing the application before Sept. 30 with the motor license division of the secretary's office.

There is no additional charge for requesting specific numbers or letters, but the request must be in the office by Sept. 30. The number has previously been assigned to a motorist who requests it again, his request will be given priority.

It has been estimated that nearly a fifth of the state's more than five million plate applications are special assignments.

Other series are also being expanded, Hyndman said. These include the "V" series, which on 1971 plates ran only through "VY," and the "W" series, of which only a few were used last year.

Plans now call for running plates in the "V" series through the alphabet, with the exception of the letters "I," "O," "Q," and "Z," which are not used in any series because they can too easily be misread for other letters or numbers.

The "W" series will be expanded to run through the entire alphabet from "WA" through "WY," including a "WD" series.

Expanding the "V" and "W" series alone will add 241,000 to the number of plates available in the state, Hyndman said.

To Use Recycled Paper

Beginning this month, the Illinois Health Messenger, monthly publication of the Department of Public Health, will be printed on recycled paper. Dr. Franklin D. Yoder, director, said that department letterheads, envelopes, many standard forms and scratch pads will soon make use of recycled paper in an effort to improve the environment. He said that paper makes up a large part of the nation's solid waste and that it "contains hazardous substances, such as mercury, released into the air when paper is burned."

'Buddy' Recruitment Open in Air Force

Sergeant Ernest Blackman, area Air Force recruiter, announced this week that the Air Force has given him authority to enlist young men under a buddy system.

The plan, according to Sergeant Blackman, allows two or more buddies to enlist together to Lackland Air Force Base in San Antonio, Tex., together and remain in the same flight through their six weeks of basic training.

Most will separate after completing basic training, but some usually go at least to their next base together, he said. Young men in this area interested in going into the Air Force together should contact Sergeant Blackman at 859 Missouri Ave., East St. Louis or call 274-1244.

Robert Astorian on State Union Board

Robert Astorian, president of the Granite City Police Union Local 1347, was elected second vice-president of Illinois Council 44, American Federation of State, County and Municipal Employees (AFL-CIO) during the council's annual convention during the weekend at Moline, Ill.

As second vice-president, Astorian will serve as chairman of the Police Policy Group and will be a member of the council's executive board.

Astorian defeated a candidate from Joliet in the election.

Percy's Backing Of 'Rocky' Not Liked in State

By KEN WATSON
Copy News Service
Springfield—Chuck Percy has done it again.

Statehouse Republicans rarely feel comfortable about U. S. Sen. Charles Harding Percy, and it seems that whenever some do start warming toward him he says something that arouses the old irritation.

The latest instance was Percy's comment on a television panel show that New York Gov. Nelson A. Rockefeller would make a good 1972 running mate for President Nixon.

Despite some efforts on his behalf including those of U. S. Rep. Paul Findley of Pittsfield, Rockefeller has never attracted much of a following in Illinois. Even among Democrats, Illinois rates as a conservative state, and Republicans especially have always been suspect of liberal-leaning Easterners regardless of their party affiliation.

No Republicans cheered louder than those of Illinois when New York Mayor John Lindsay switched to the Democrats. Thus it was like rubbing salt into old wounds when Percy made his boost for Rockefeller. What especially aroused his home-state Republicans was Percy becoming publicly involved in the growing speculation over whether or not Vice-President Spiro T. Agnew will be dumped next year.

Agnew, who has made several visits to Illinois, including Springfield, has a substantial following among Republicans in this state.

The feeling beneath the Capitol Dome is that most would just as soon see him on the 1972 ticket as anyone else. In any event, the last person they would want as a replacement would be Nelson Rockefeller.

There is a Statehouse feeling, too, that the vice-presidential situation is of minor importance as far as President Nixon's chances of again carrying Illinois are concerned. The current feeling is that he will beat any Democrat in this state, matter who the GOP may nominate for vice-president.

This feeling accounts in large measure for the fading of earlier speculation that Percy himself might wind up running for vice-president. The feeling is that Nixon doesn't need him to carry Illinois and that Percy running for re-election for senator will be a sufficient boost to the overall ticket.

Annoyed as they may be about Percy's plumping for Rockefeller, Statehouse Republicans are not encouraging any revival of talk about a primary opposition for Percy.

The senator may irritate them at times but his vote-getting power is highly respected. This is a view shared by Illinois Democrats and accounts for the virtual lack of candidates volunteering to run against him next year.

Percy has reached that envied position in politics where he can be about as independent as he pleases without fear of being dumped by other party leaders.

Indeed, it is this frequently displayed independence which is credited with building Percy's popularity with the voters. It is the independent vote which always decides close elections in this vigorous two-party state and Percy's

Roentgen of X-ray Fame Was Expelled Student

By BETT ANDERSON
Copy News Service

Wilhelm Roentgen never graduated from high school for the simple reason that the Van Doorn school in The Netherlands had no graduation. The seniors simply stopped coming on a fixed date.

Wilhelm looked forward to being 15 because, at that age, all Dutch boys were allowed to smoke, mostly cigars and pipes. An uncle gave him a finely carved meerschaum to mark the great occasion.

Wilhelm, like all of his pals, knew that the first few puffs on a new meerschaum were obnoxious. So he rigged up a suction pump on his pipe to "smoke" the first couple of times for him.

Wilhelm was so good at building gadgets that his father thought he should have some technical training. The 16-year-old teenager could have gone into his father's business, making cloth. But both Roentgens thought their son was intended for bigger and better things, so they sent him to a school in Utrecht to learn the technical background required for factory managers.

Because he was an out-of-town student, Wilhelm was obliged to live with a family in Utrecht. He moved in with Prof. Gunning's family. They were a happy, cultured people and Wilhelm thought they were the greatest. They all rode horseback, ice-skated and put on plays written by the Gunning family.

However, it was not all play and no study. Wilhelm actually had a passion for learning. He stayed up half the night studying. His grades were neat.

He got A's in practically every subject and his behavior was rated "good."

Then he became unpopular with the teachers for asking too many questions. One of the professors disliked Wilhelm very much. At 19, he was expelled because he would not tattle on another student.

With Prof. Gunning's influence, Wilhelm managed to sign up at a university and continue his enthusiastic study of science. This was fortunate for Wilhelm and for the world. For Wilhelm Roentgen was to become a great researcher and, almost by accident, the discoverer of X-rays. He was also the first winner of the Nobel Prize for physics and a great scientist.

strength with this group is recognized by all. It would surprise a great many Republicans, not only in Illinois but elsewhere, as well, if 1972 were to see a Nixon-Rockefeller ticket.

But even if that should occur, it would probably make little difference in this state. Grumble they might, but Republicans would expect to carry it for Percy, Rocky—and Chuck.

Staff Changes In State Social Policy Institute

By JERRY OWENS
Copy News Service

Springfield—Bruce Thomas, new director of Gov. Richard B. Ogilvie's Institute for Social Policy, has wasted little time shaking up the Institute's personnel and operation.

The shape-up actually began late last month when Ogilvie fired Director Roy Wehrle and replaced him with Thomas. This month, Thomas abolished the Institute's key fiscal-administrative unit and, along with it, abolished the jobs of eight employees.

Among those let go were three high-level executives: Walter Searfoss, Fritz Schwelke and Bruce Trester. Others who got the ax include two secretaries, a voucher clerk and a messenger clerk.

In addition, Thomas says he has fired the Chicago office manager and may shake up the

staff some more in the near future.

The Institute, attached bureaucratically to the Department of Public Aid, was set up by Ogilvie to find ways of assisting the poor and needy. There has been criticism from some quarters—including the General Assembly and, privately, Ogilvie's own staff—that the Institute has done little in its nearly three years of existence.

Searfoss, Schwelke and Trester were in the \$15,000 salary range. Searfoss was manager of fiscal and support services; Schwelke was in charge of administrative services; Trester handled federal grants.

Wehrle also thinks Thomas' abolition of the fiscal-administrative unit now "subordinates the Institute to Public Aid," for the Public Aid Department, according to Thomas, will do the work formerly done by the unit.

Wehrle, who was director only a year, feels the Institute did many good things—some of them acknowledged by the governor—under his direction. He

"WHY DON'T YOU BECOME
ONE OF TRI-CITY'S
"CASH SAVING" FAMILIES?"

It's especially important these days to save cash... with "back-to-school" purchases, "price & wage freeze, etc.!!

So why don't you use your "serendipity" powers and become one of Tri-City's "cash saving" families!"

If you're already among the "coupon clipping," "cash saving" family why don't you pass on your apocryphal findings to your neighbors and friends.
